REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 2nd July 1887.

Read the following correspondence in regard to the claim of Messrs. Chikmallaiya and Co., on account of their buildings situated within the compound of the Shimoga Distillery, which were used by Messrs. Smith and Co. during the currency of their Arrack Contract from 1st April 1884 to 31st March 1887.

1. **Letter No. 100—75, dated 30th April 1884, from the Deputy Commissioner, Shimoga District.**
2. **Letters from Messrs. Smith and Co., dated 10th and 13th May 1884.**
3. **Letter from Deputy Commissioner of Shimoga District, No. 783—590, dated 3rd October 1884.**
4. **Letter from Deputy Commissioner of Shimoga District, No. 1468—1119, dated 6th March 1885.**
5. **Letter to Deputy Commissioner of Shimoga District, No. 3447—71, dated 28th July 1886.**
6. **Letter from Deputy Commissioner of Shimoga District, No. 290—281, dated 16th August 1886.**
7. **Dewan's Order, dated 30th March 1887.**

Send the file to the Deputy Commissioner of Bangalore and ask to submit brief note on following points:—

1. Is Government bound to purchase the building? and under what provision of rules or contract?
2. If Government buys, what is the amount payable by the contractors whose contract expires on 31st March 1887? Please settle with Narayansami Mudaliar immediately.
3. What rent will new contractors, from 1st April 1887, pay for the few months for which they will use it, till their arrangements for supply from Bangalore are completed?

8. **Major Macintire's Memorandum No. A.**

Q. Is Government bound to purchase the building? If so, why?

A. Government is not bound to purchase the building. In 1881 Government intended to do so, but the Executive Engineer estimated it would take Rs. 5,074 to put them in order. Their then value was put down at Rs. 930, Government refused to buy on account of expense. Messrs. Chikmallaiya then offered to buy up the old buildings and add what was necessary, leaving it optional for Government to take over the whole at the end of the contract. This was agreed to and they erected some further buildings,

The new contractors in 1884 (Smith and Co.) objected to buy the buildings as they only tendered to rent them.

Q. If Government buys, what is the amount payable by present contractors whose contract expires (d) on 31st March 1887?

A. Now, this point was sent to me for settlement with all the other claims which took a long time. I decided that neither Government nor the contractors were bound to buy the buildings and that Messrs. C. Mallaiya and Co. were only entitled to rent on account of buildings. (Note.—Government has always received an item of Rs. 19—8—0 a month as rent for the enclosure both from Messrs. Mallaiya and Co. and Smith and Co.). The rent I have fixed for Messrs. Smith and Co., to pay Messrs. C. Mallaiya for contract just expired is 12 per cent on Rs. 2,200, the value fixed by the Executive Engineer, Shimoga, in his No. 213 of 29th April 1884, or Rs. 22 a month. This will amount to Rs. 792 for the three years. To this should be added interest at the rate allowed by me on all the other transactions, *viz.* 12 per cent simple. This will be about Rs. 70 (*viz.* 18 per cent on the mean Rs. 396), making a total of Rs. 862 to be paid to Messrs. Chikmallaiya and Co. by Messrs. Smith and Co. for the rent for the last three years. Out of this Government has to receive Rs. 240 from Messrs. Chikmallaiya and Co., on account of repairs executed.

Q. What rent will new contractors have to pay from April 1st?

A. The new contractors will have to pay Rs. 22+Rs. 19—8—0 a month rent from April 1st, 1887.

The net result is that Messrs. Smith, Narayansami and Co., have to pay Messrs. C. Mallaiya and Co. Rs. 862 for the three years and Messrs. Chikmallaiya and Co. have to pay Government Rs. 240 out of that.

References sent by Chief Secretary are herewith returned. I append also copies of a few other references bearing on the point that were not in the file.

9. Dewan's Order thereon, dated 24th May 1887.

I approve of the settlement above explained, as upon the papers before me I cannot see that the Government are in any sense bound to buy the building in question. If the Deputy Commissioner of Shimoga can find any records in his office shewing that the Government is morally or legally bound to purchase the building, I shall then be glad to reconsider the question on the submission of a report citing facts and quoting correspondence and other papers.

Major Macintire's Memo and these remarks thereupon with the file in original to be sent accordingly to the Deputy Commissioner, Shimoga.

10. Letter No. 134—126, dated 11th June 1887, from the Deputy Commissioner, Shimoga District.

In returning herewith the enclosures of your docket No. 572 of the 24th ultimo, as per list, I have the honor to state that I have carefully gone over the records in this office in connection with the Distillery buildings, but I can nowhere find that Government had at any time held out hopes to the late contractor that his buildings would be purchased by Government.

No. 1784-8—90, DATED 2ND JULY 1887.

ORDER THEREON.—There is nothing on record to show that the Government ever held out to Messrs. Chikmallaiya and Co., any hope that the buildings in question would be purchased by it. The Dewan finally approves of the settlement proposed by Major Macintire in regard to the payment of rent for the use of the buildings by Messrs. Smith and Co., *viz.* that Messrs. Smith & Co. pay to Messrs. Chikmallaiya & Co. a sum of Rs. 862, as rents for the three years from 1st April 1884 to 31st March 1887, and that Messrs. Chikmallaiya and Co. pay to Government Rs. 240 which represents the cost incurred by the Public Works Department in repairing the buildings during the said period.

Proceedings of the Dewan, dated 16th September 1886, Camp No. 950—60.

No. 1733-42—47, DATED BANGALORE, 2ND JULY 1887.

ORDER THEREON.—In para 6, line 1, for "the full survey valuation of" substitute "the assessment imposed by the Survey settlement as leviable on."

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Survey Superintendent.
The Deputy Commissioners of Districts.
The Comptroller.

READ THE FOLLOWING PAPER:—

Letter No. 471 of the 20th January 1887, from the Deputy Commissioner, Tumkur District, reporting on the petition of Bangalore Marigauda, residing in the Jodi village of Handalgere, Kunigal Taluk.

No. 1888-9—41, DATED BANGALORE, 17th JULY 1887.

ORDER THEREON.—The inam lands in question which were purchased by petitioner Marigauda at a revenue sale held on the 18th October 1880, constituted two vrittis of the Jodi village of Handalgere. This village is personal and not a "Devadaya" inam, and it has been duly enfranchised. The vrittis in question appear to have been assigned by the Jodidars for the maintenance of *Dhanurmasam* service at the Narayanaswami temple at Honalgere, but such an assignment by an inamdar has not the effect of converting a personal into a "*Devadaya*" inam. Under such circumstances the rules relating to *Devadaya* inams cannot apply to the vrittis in question which must be treated as a personal inam in the same way as the whole village of which they form a part. They must accordingly be held to belong to the purchaser at auction, and the inam tenure on which they were held was not liable to cancelment, as in the case of the alienation of an inam granted by the Government for charitable purposes. The orders contained in Proceedings No. 6939-7000—381, dated 16th February 1883 were passed on incorrect information as to the nature of the inam in question and they are accordingly hereby withdrawn. The vrittis in question must be treated as part of the inam village of Handalgere and in accordance with the Inam settlement, the full quit-rent on the village should be levied, the purchaser Marigauda being regarded as one of the vrittidars. If, as petitioner alleges, the full assessment of the lands has been collected from him from the year 1881—82, the difference between such collection and the quit-rent payable according to the Inam settlement should be refunded to him.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Tumkur District.
The Inam Superintendent.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 29th July 1887.

READ THE FOLLOWING PAPERS :—

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Dewan of Mysore, No. 802, dated Bangalore, 11th December 1886.

I have the honor to submit for decision a case of considerable importance in which Yelemallappa Chetti, Rai-Bahadur, claims exemption from water-rate upon all lands in his possession under a tank which is constructed in the lands of the Jodi villages of Viranhalli and Kurud-Sonnenhalli of the Kadgodi Magani of the Hoskote Taluk, and both of which villages belong to the claimant.

2. The case now under reference does not come under the ordinary rules for dealing with private tanks.

3. The tank is known by the name of "Mallappa Chetti's tank" and the applicant states, although incorrectly, as will be seen by referring to the taluk map, that the bund, water spread, &c., are all situated in his Jodi villages, and therefore that the tank is entirely his own. As a matter of fact the water spread extends to the villages of Avalhalli and Hirandhalli. The Deputy Commissioner, in his Vernacular No. 591 of 25th October last, which will be found in the file of correspondence attached, expresses his opinion that the tank cannot be considered as other than a Government tank and cites as a parallel instance that of Government tanks towards the construction and up-keep of which ryots contribute and yet which are Government tanks and under which no remission of water assessment is allowed.

4. The facts of the case, and on which Yelemallappa Chetti, Rai-Bahadur, bases his claim are somewhat as follows :—The original estimate of constructing the tank was Rs. 14,737. Of this amount, Yelemallappa Chetti paid Rs. 7,368—8—0 into the Government Treasury and in accordance with orders from the District No. 60 of the 2nd November 1876, proceeded to carry out the work on which he spent Rs. 9,305—1—3, out of which Rs. 5,817—6—9 were paid back to him from the treasury, leaving Rs. 3,487—10—6 as his private expenditure which, added to the Rs. 7,368—8—0 already paid into the treasury by the claimant, made up his total expenditure to Rs. 10,856—2—6. After the money, as above, had been spent, the tank was taken up by Government as a relief work. I have no data regarding what Government spent upon the tank after taking it over or regarding what work was done.

5. I attach a Statement A, showing the lands in the "Atchkat" of the tank, and another Statement B, showing the claimant's own lands in the said "Atchkat."

6. There appears to be no doubt that the facts are in the main as stated in para 4 above. My view of this case was that its disposal rested entirely with the Revenue authorities and that it did not belong to this Department to deal with, or even report upon, the matter, nor would I now have taken any action had the present case not been in a great measure mixed up with the settlement of another case forming the subject of the orders of Government, as per margin, in the last of which dated 25th January 1881, it was directed that a survey and settlement of the villages in which the lands which were given to Yelemallappa Chetti in lieu of Inam lands taken up for the Kadgodi plantation should be carried out and any excess, in the value of the lands given in exchange, charged as jodi on them.

Chief Commissioner's No. 9715—174, 3rd February 1879.

Do do No. 6235-44 R—1076, 25th January 1881.

7. The lands for which Yelemallappa Chetti claims exemption from water-rate include the lands which were given him in lieu of land taken for Kadgodi plantation, and therefore it is obvious that, if his right to the tank water free of tax is admitted, it would not be right to value the wet land at the full survey assessment for the purpose of calculating the excess in value over the lands taken from him and charging jodi as directed. It will obviously be necessary to dispose of the claim made to the tank before the subsidiary question of charging the excess in the value of the lands given in lieu of the land taken up for the Kadgodi plantation as jodi can be dealt with.

8. I attach a file of correspondence which has taken place on the subject of this letter, the most important document being Deputy Commissioner's hukum No. 60 of 2nd November 1876.

Showing the lands in the "Atchkat" of Yelemallappa Chetti's Tank.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 29th July 1887.

Memorandum by the Dewan of Mysore, dated 28th July 1887.

Yelemallappa Chetti's tank in the Hoskote Taluk, Bangalore District.

The question referred by the Survey Superintendent in his letter No. 802, dated 11th December 1886, is whether water-rate is chargeable on Yelemallappa Chetti's Inam lands under this tank. I have carefully studied the rather voluminous correspondence connected with the case, and the important papers throwing light upon the subject are specified in the appended list.

2. The Mutchalika of 2nd November 1876 and the correspondence previous thereto show that the Government have no right to demand a water-rate in respect of Yelemallappa Chetti's Inam lands under the tank.

3. The tank is a new construction of 1876—78. The original estimate for the work was Rs. 14,737. The Government agreed to give Yelemallappa Chetti, free of charge, the water required for his Inam lands under the tank, provided that the water so given did not exceed one half the water-supply available. He on his part agreed to bear one half of the cost of constructing the tank. In accordance with this arrangement, he paid into the Government Treasury, by various instalments between 13th February 1879 and 14th February 1881, the sum of Rs. 7,368—8—0, being one half of the original estimate of Rs. 14,737. This payment secures to him the right to the free use of one half of the water-supply to irrigate his Inam lands below the tank. The case should be treated in the way in which tanks which irrigate Government and Inam lands are treated. There are several such tanks in the Province, half the atchkat of which is Government kandayam land and the other half Inam land. The Inam land in such cases pays no water-rate for the use of the water under the terms of the sannad granting the Inam. In the present case, there was the identical arrangement entered into between the Government and the Inamdar in consideration of the payment by the latter of one half of the cost of the construction of the tank.

4. In regard to the cost of future repairs, Yelemallappa Chetti desired to be exempted from it in consideration of a present payment of Rs. 500, but the Government refused to recognize such exemption. (*Vide* Letter No. 2160—3678, dated 27th October 1876, from Secretary to the Chief Commissioner, Public Works Department, to Deputy Commissioner of Bangalore.) Yelemallappa Chetti or his successor in title is therefore liable—

(*a*) to maintain the tank under the rules of the Public Works Department Notification, dated 2nd October 1873;

(*b*) to contribute his quota towards repairs, local and irrigation cesses (Section XXVI of the Inam Rules); and

(*c*) to share with Government the cost of any future restoration or repairs, as is the custom in the case of tanks whose atchkat belongs partly to Government and partly to Inam villages.

5. Yelemallappa Chetti's right to the free use of water is limited to *one half* of the atchkat. If his Inam land is more than one half of the atchkat, he must be charged water-rate for such excess.

6. It will be seen from Kolar Executive Engineer's letter No. 359, dated 15th February 1879, and Secretary to Chief Commissioner's letter No. 55—144, dated 17th January 1880, to the Secretary to the Government of India, that the original estimate of Rs. 14,737 was exceeded by only Rs. 928, if the expenditure due to famine be excluded. The Government will waive its claim to recover from Yelemallappa Chetti one half of the excess expenditure of Rs. 928.

7. Yelemallappa Chetti's statement that he paid more than one half of the original estimated cost of Rs. 14,737 is not strictly correct. The statement refers to a sum of Rs. 4,399—2—6 which as Government contractor he alleges to have spent upon the tank but which the Public Works Department decided he was not entitled

to receive from Government under the circumstances stated in Kolar Executive Engineer's letter No. 635, dated 15th December 1878, and Superintending Engineer's letter No. 87, dated 3rd April 1879. This question cannot now be reopened.

8. A copy of this decision will be forwarded to the Superintendent of Survey and Inam Settlements for the needful action in regard to water-rate and the adjustment of the equivalent granted for the area taken from Kumbhena Agrahar for the Government Plantation. Any Inam title-deed which may have to be issued should record the rights and liabilities referred to in paras 3 and 4 above.

9. Yelemallappa Chetti claimed compensation for his Inam land submerged by the tank. The area of such submerged land is less than one half of the bed of the tank which was constructed at his instance and in which he has a half interest. This claim has accordingly been already rejected.

10. The entire control over the tank vests absolutely in the Government. Neither Yelemallappa Chetti nor his successors can have any voice in its management.

No. 2420-2—29, DATED 29TH JULY 1887.

ORDER THEREON.—Ordered that the Dewan's Memorandum above printed be forwarded to the Deputy Commissioner, Bangalore District, *to the Superintendent of Revenue Survey and Inam Settlements, and to the Secretary, Public Works Department, for information and guidance. The Deputy Commissioner is requested to communicate a copy of this decision to Yelemallappa Chetti's heirs and to the mortgagee Arcot Narayinsami Mudaliar.

*Together with copy of letters specified in accompanying list and original enclosures of Survey Superintendent's letter No. 802.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent of Revenue Survey and Inam Settlements.
The Deputy Commissioner, Bangalore District.
The Secretary, Public Works Department.

Proceedings of the Dewan to His Highness the ***Maharaja of Mysore,*** *(Revenue),—dated 29th July* 1887.

READ —

Letter No. 483—218 of 3rd July 1886 from the Deputy Commissioner of the **Kolar District**, proposing certain arrangement regarding the Inam villages of the Desakulakarni family in the **Sidlaghatta** Taluk ; also vernacular papers submitted therewith.

No. 2475—91, DATED BANGALORE, 29TH JULY 1887.

ORDER THEREON.—The Inam villages of Mitnahalli, Golhalli and Venkatapura (formerly Desakulakarni but duly enfranchised at the Inam settlement) are under the management of Government, for the benefit of the various members of the Desakulakarni family and in accordance with the decree of the late Huzur Adalat Court, confirmed in appeal No. 9 of 1842 on the file of the Commissioner's Court. By order of the Commissioner (as the court of highest appeal) dated 11th September 1846 the Superintendent of the late Bangalore Division was directed to assume the management of the estate and to carry out the decision of the aforesaid decree by an annual division of the mesne profits among the various members of the family according to their respective shares.

Disputes have from time to time arisen among the members of the family and they have formed the subject of subsequent decrees, of civil decrees, private partition deeds among the parties and executive orders of the Government.

It is under such circumstances undesirable that the Government should continue to manage this estate any longer, and it is accordingly directed that the lands of the villages comprised therein be divided among the various members of the family according to the respective shares to which they are entitled.

The appended family tree is prepared from the records above read, but for purposes of the division of lands above ordered it would be sufficient (in the first instance at least) with the shares of the sons of Krishnappa and the sons of Venkanna as well as those of the Hettakki and Kasaba branches. The division of the lands of each village should be made according to the shares specified below :—

	Hettakki Branch.	Kasaba Branch.	Sons of Krishnappa.				Sons of Venkanna.				
			Hariyappa.	Venkappa.	Venkata Rao.	Ramachandra Rao	Shamanna.	Subbanna.	Narappa.	Puttappa.	Subba Rao.
Mitnahalli	$\frac{10}{120}$	$\frac{10}{120}$	$\frac{5}{120}$	$\frac{5}{120}$	$\frac{5}{120}$	$\frac{5}{120}$	$\frac{4}{120}$	$\frac{4}{120}$	$\frac{4}{120}$	$\frac{4}{120}$	$\frac{4}{120}$
Golhalli	...	...	$\frac{15}{120}$	$\frac{15}{120}$	$\frac{15}{120}$	$\frac{15}{120}$	$\frac{12}{120}$	$\frac{12}{120}$	$\frac{12}{120}$	$\frac{12}{120}$	$\frac{12}{120}$
Venkatapura	...		$\frac{21}{120}$	$\frac{21}{120}$	$\frac{21}{120}$	$\frac{21}{120}$	...	...	$\frac{12}{120}$	$\frac{12}{120}$	$\frac{12}{120}$

Mitnahalli was acquired by the common ancestor Vedanarnappa and there is no dispute regarding its division.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 29th July 1887.

Golhalli was acquired by Shankarappa and equally divided among his two sons Subba Rao (father of Krishnappa) and Venkanna. That Venkanna's descendants have a right to one half of this village is clearly admitted in partition deeds by the descendants of Krishnappa.

Venkatapura was acquired by Krishnappa and though Venkanna's descendants had in strict right no share in that, yet by virtue of the Judicial decree in force three sons of Venkappa (Narnappa, Puttappa and Subba Rao forming the Channasandra branch) now have a right to $\frac{30}{120}$ths or $\frac{3}{10}$ths share of the village.

The Deputy Commissioner will accordingly be directed to divide the lands of the villages in question according to the shares specified in the foregoing statement. If the parties cannot agree among themselves as to the division of the land into the required number of shares, then in that case the villages must be surveyed and broken up into the respective shares and absorbed in neighbouring Government villages as minor inams. Any disputes between the parties as to what particular shares should be allotted to a particular member should be decided by lottery.

R. VIJAYINDRA RAO,
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

READ THE FOLLOWING PAPERS:—

From the Superintendent, Survey and Settlement, Mysore, To the Chief Secretary to the Dewan of Mysore, No. 928, dated 27th January 1887.

I have the honor to forward all the papers relating to the proposed revision of the assessment in the Mysore Taluk of the Mysore District.

2. The correspondence in question closes with the Deputy Commissioner's letter No. 1807 of the 19th instant and I am glad to find that he agrees with me in considering the proposed rates both moderate and suitable. I think the ryots, as stated by the Deputy Commissioner, had formed some idea of the rates that they might expect judging no doubt from the rates adopted in the Yedatore and Attikuppa Taluks with which many of the ryots must be familiar. They must also have been quite aware that the rates under the old system were such as Government could never for a moment think of continuing and I have little doubt that notwithstanding the increase involved, the proposed rates will be well received.

3. I have entered pretty fully, however, into all these points in my settlement report and it only remains for me to solicit sanction to my proposals so as to admit of my giving out the rates sometime next month.

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Dewan of Mysore, No. 895, dated 17th January 1887.

I have the honor to submit the following proposals for the revision of the assessment of the Mysore Taluk of the District of the same name.

2. The usual report by Mr. Barker, the officer who carried out the greater part of the classification of this Taluk, is appended and as it contains a petty full account of the Taluk on all essential points, much reiteration on my part will not be necessary.

3. The following are the maganis or ancient sub-divisions into which this Taluk is divided :—

No.	Magani.	Number of Government Villages.	Kavals.	Inam Villages.	Total.	Remarks.
1	Mysore	15	...	...	15	
2	Sindhavalli	27	...	9	36	
3	Yelwal	20	...	3	23	
4	Varkod	20	...	5	25	
5	Navasahar	5	...	...	5	
6	Lingambudhi	25	...	3	28	
7	Anandur	17	1	4	22	
8	Kundanhalli	18	...	2	20	
8	Total.....	147	1	26	174	

4. The whole tract under report is not very extensive comprising only 306 square miles, Government villages, inam villages and kavals all included. The present proposals and the statistics generally, which I shall give later on, relate more immediately to the 148 Government villages, including 1 kaval.

The Taluk is of compact and convenient shape with its head-quarters at the town of Mysore itself. The city occupies a fairly central position within easy reach of almost all the villages under report. If any exceptions exist, they are in the case of a few villages of the Sindhavalli, Anandur Maganis which are somewhat distant, but this disadvantage is greatly modified by the extensive system of roads, which radiate from Mysore in almost every direction.

5. The town of Mysore has been the capital of the Province since 1799 and from its present importance, as well as its past history, presents many points of interest worthy of notice, but to allude to which here would be somewhat beyond the scope of this report, besides they have already been far more ably recorded and dealt with by the talented Compiler of the Gazetteer for Mysore and Coorg. It is, however, very much to our present purpose to note the existence of this large and flourishing city in the very midst of the tract to be now settled, and to lay stress upon the influence which its proximity must necessarily exert upon the conditions under which agriculture is pursued, produce, of each and every kind, however miscellaneous in character, commanding a ready and remunerative sale. The facilities for obtaining manure are of course considerable and the smallest article, fit for consumption, which can be raised and which in more remote villages would probably be unsaleable, here has its price.

6. The means of communication comprised in roads are noted in detail by Mr. Barker at para 12. With the exception of a few villages to the south-west, every part of the tract is fairly provided for in this respect.

7. The Mysore State Railway from Bangaloro enters the Taluk from the north through Seringapatam adding no doubt greatly to the floating population and increasing the trade of the surrounding country. A very nice question has occasionally been raised as to whether the extension of a railway to a large town like Mysore has the effect of lowering prices. The inflow, as the result of such extension, has become easy where, before, the advantage was chiefly in the facility of outflow; consequently the produce of more remote villages, especially the less bulky and valuable products has been brought into competition with that of the villages near the terminus. I think there can be no doubt that the tendency of extended railways is to lower the prices of the less bulky articles, such as areca-nut, cocoanuts, sugar and even rice, at the terminus or large centres, while the more bulky articles such as ragi, kulti, &c., although also affected, have their prices chiefly regulated by good and bad seasons. I give these remarks for what they are worth, but I may here state my opinion that any fall in prices from such causes as the above is scarcely worthy of any very great consideration with reference to any special treatment in the matter of assessment. To me it appears that the extension of railway brings the more remote tracts through or near which they pass on more level terms with the country near the terminus or large centres, but any small fall in prices that may occur in the latter is too minute to influence, to any appreciable extent, the question of a suitable revision of the assessment.

8. The climate is fairly healthy and the rain-fall which, setting aside the exceptional famine years, averages about 30 inches, is seasonable and well distributed, admitting, even in the comparatively shallow and poor soils of this Taluk, of very extensive dry cultivation. The double crops stated by Mr. Barker to be obtainable off the same ground in the same year are not, I imagine, very usual. "Gid" ragi is very generally sown and is followed by some after crop, but it must not be supposed that two full crops are obtained, excepting in rare instances. The practice however is common enough to indicate a climate greatly superior to that of the country lying further to the east.

9. The tract under report participates in the river channel system to a comparatively small extent. The Virjanadi and Devaraj channels irrigate a few villages to the east, and the Anandur channel does the same for some villages in the north-west of the Taluk.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

10. The crops taken from all classes of land are described by Mr. Barker at para 8. The dry crops are those usually grown in Mysore, there being two distinct seasons for sowing, the "karu and the hainu."

Garden crops are chiefly supari, cocoanut, betel-creepers and plantains, but the proportion of the superior produce to the ordinary minor produce of the "Chillar Bagayat" is comparatively small. Gardens however are of very mixed character, ranging from fine tree gardens to the very poorest kind little superior to ordinary dry land.

What wet land there is, is almost all channel irrigated and good sugar-cane and some fine crops of rice are obtained. Double crops are not usual at present in wet lands.

11. The resources of the tract under report can be in some measure judged from the following figures, the result of statistics collected during classification :—

Villages.	Houses.	Population.	Square Miles.	Cattle.	Ploughs.	Carts.	Market Towns.	Remarks.
148	21,883	102,441	261	83,697	8,537	2,474	5	

Similar statements were given in the settlement reports of the neighbouring Taluks of Yedatore and Attikuppa. As might be expected the Taluk under report shows to great advantage compared with the two taluks in question, not only in population but in agricultural stock, in which may be included carts. This is of course due to the presence of a large town like Mysore. Leaving out the town altogether, I am not sure that the surrounding country is very superior to either Yedatore or Attikuppa in the points referred to.

The population per square mile for the whole area comes to 392.

The Famine Commissioner reported this Taluk as only slightly affected by the famine and the population on the basis of a test taken in the Lingambudhi Magani, as having gone down from 126,930 in 1871 to 120,482 in 1878. It appears to me to be erroneous to calculate the severity of a famine, where a large town is concerned, on mere figures of population, as seems to have been done, and I find it very difficult to accept the conclusions arrived at especially as I observe that, in the map illustrative of the famine, tracts to the west of Mysore are colored as far more severely affected than Mysore. If the river channels are considered to account for the difference, the matter is easily understood but, from personal observation, I should certainly not consider the ordinary dry cultivation of the Mysore Taluk less liable to the vicissitudes of climate than that of the country further west, but rather to occupy in this respect a middle position between the latter and the country further east.

12. The villages under report have been divided up by survey as below :—

Description of Land.	Government.		Inam.	Total.		Grand Total, Government and Inam.
	Occupied.	Waste.		Occupied.	Waste.	
Dry Crop	82,959	11,328	5,775	88,734	11,328	100,062
Rice	3,354	64	224	3,578	64	3,642
Garden	3,844	122	225	4,069	122	4,191
Total.....	90,157	11,514	6,224	96,381	11,514	107,895
Unculturable Area including Village Sites, &c.						58,309
Area of Whole Inam Villages						28,958
Area of 1 Amrut Mahal Kaval						759
Total Area of the Taluk, 306 square miles.....						195,921

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

The unoccupied arable waste is of very small extent and is chiefly dry land. Of the whole arable area, nearly 90 per cent is occupied. The unculturable area is only about half the extent of the arable area. Very nearly the same state of things was found to exist in both the Yedatore and Attikuppa Taluks.

13. The past revenue management of this Taluk requires careful consideration, for it has been of such a character as to seriously influence the proposals which I have to make for revising the assessment. There has never been any survey worthy of the name nor any demarcation nor yet any attempt to classify the soils excepting in the case of garden lands to which I shall presently allude. It is however in the case of the dry lands that so much has been left undone. Perhaps the weight of the old assessment will be best understood from the following figures which show the average rate in each magani, under each head, obtained by applying the newly ascertained survey area to the old collections :—

Number.	Magani.	Dry Crop.			Rice.			Garden.		
		Acres by Survey.	Old Collections.	Average Rate.	Acres by Survey.	Old Collections.	Average Rate.	Acres by Survey.	Old Collections.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11
1	Mysore ...	7,864	4,317	0 8 9	7	46	6 9 2	1,150	3,401	2 15 4
2	Sindhavali ...	14,026	8,325	0 9 6	10	300	30 0 0	312	1,025	3 5 7
3	Yelwal ...	10,680	5,472	0 8 2	...	25	...	533	1,573	2 15 3
4	Varkod ...	16,577	7,945	0 7 8	502	2,281	4 8 0	323	707	2 3 0
5	Navashahar ...	2,745	1,079	0 6 3	1,342	7,484	5 9 3	321	484	1 8 1
6	Lingambudhi ...	14,113	7,310	0 8 3	167	334	2 0 0	666	1,535	2 4 11
7	Anandur ...	6,736	3,342	0 7 11	1,234	6,059	4 14 7	376	1,297	3 7 2
8	Kundanhalli ...	10,218	6,107	0 9 7	92	149	1 9 11	163	203	1 3 11
8	Total.....	82,959	43,897	0 8 6	3,354	16,678	4 15 7	3,844	10,225	2 10 7

NOTE.—Rs. 811 being the amount of miscellaneous collections are not included in the above.

It is quite clear from the above that this important Taluk has been very lightly assessed and moreover that the lump assessment has been very unequally distributed. The dry assessment, for instance, in the Sindhavalli and Kundanhalli Maganis is about 50 per cent higher than in the Navashahar Magani and so on, throughout, there are differences for which no justification can be found. Wet and garden lands it will be seen are differently classed in the old accounts and by survey, but there is quite enough in

		Old Average Rate.
Holé-Narsipur	...	0 9 8
Arkalgud ...	...	0 10 3
Hunsur ...	...	0 8 0
Yedatore ...	...	0 7 5
Attikuppa ...	...	0 10 8

the statement above given to prove the unequal incidence of the wet and garden assessment. The average rate on dry land comes to Rs. 0—8—6 per acre which compares with neighbouring settled taluks as per margin. In the Yedatore Taluk the old dry assessment was especially corrupt, in the taluk under report a very similar state of things exists under all heads.

14. Next it will be well to see how far the bijavari or area in the old accounts tallies with the actual area by survey. This is shown below :—

Description.	Area in Acres as per old Accounts.	Acres by Survey.	Remarks.
Dry	50,908	82,959	
Wet	4,836	7,198	Includes garden.
Total.....	55,744	90,157	

That so great a difference in the recorded and the true area should be found in the case of dry lands is not unusual and is capable to some extent of explanation, but in the case of wet land the circumstances are very different and the suppression in the accounts of so large an extent as over 2,000 acres reflects very seriously on the revenue management.

15. The classification alluded to at para 13 of this report as having been made of the garden lands of the Mysore and Hunsur Districts must here be briefly alluded to. The Superintendent of the Ashtagram Division, with his letter No. Genl. 1554—Rev. 77 of the 15th August 1866, submitted reports drawn up by Messrs. Somasundar Rao and Krishna Rao, Assistant Superintendents, on their proposed treatment of the gardens in question. The Commissioner of Mysore in his order No. 2627—56, dated 31st August 1866, approved generally of the proceedings of the above mentioned officers, condensing their proposals and fixing the rates for garden lands as per margin. I cannot ascertain how far effect was given to the order in question, but this is quite immaterial as my only object in making any allusion to the matter is to show what the idea in those days of an appropriate scale of garden rates was and to contrast those rates with those now found actually to exist as shown at para 13, and, later on, with those which I propose to adopt. As regards the first point it will be seen by referring to para 13 that the average rates on garden taken from the actual area come to a little over Rs. 2 per acre, thus making it clear, either that all the gardens were very inferior, which of course we know perfectly well was not the case, or that the area returned as garden was wrongly stated. I have no doubt the latter view of the matter is the correct one. The officers who made the enquiry showed great intelligence, but it might have occurred at the time to the higher authorities how hopeless it was to attempt any settlement of the kind without a survey.

Per Acre.
Rs.
15
12½
10
8
6
4½
3½
2
1½

16. I will not pursue this subject further at present, feeling assured that the correctness of my views as to the inequality of the old assessment and the unreal character of the old rates is not likely to be questioned.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

17. The realizations for the past 25 years may now be exhibited as below, the prevailing prices of the staple products, ragi and rice, being shown for the same period :—

Year.	Bijavari.	Total Demand.	Remissions.	Balance collected.	Seers per Rupee.		Rice.
					Rice.	Ragi.

25 years' average ...		...	...	66,528			

Unlike other parts of Mysore the raise or fall of prices seems to have had little or no effect on the collections. Fluctuations there have of course been, but not such as the extraordinary vicissitudes through which the Province has passed would lead one to expect, and now we find the year 1885—86 showing the highest realizations ever known in the taluk. The only conclusion to be arrived at is that the lump sum taken out of the taluk as revenue sat peculiarly lightly upon it. I may remark that the past history of the Yedatore and Attikuppa Taluks, as told by the collections, presented a very similar state of things and it is only when we come to taluks more remote and less well supplied with markets or less favored by climate, that we find the famine to have made its mark upon the collections,

18. For the purpose of assessing I propose to divide this taluk into two groups shown below :—

Group.	Number of Villages.	Maximum Dry Rate.	Maximum Rice Rates.		Maximum Garden Rate.	Remarks.
			Ordinary.	Channel.		
... ...	55	2 0 0	8 0 0	10 0 0	10 0 0	
... ...	92	1 12 0				

The villages of the 2nd group are those which are somewhat distant from Mysore ıd not so well situated with reference to means of communication as those of the ɜt group. It will be observed that the distinction is only as regards dry rates, the ss bulky and more valuable produce of the garden and wet lands rendering no istinction in their case necessary.

19. I am quit aware that the above rates are open to the charge of being ıwer relatively, considering all the advantages enjoyed by the tract under report ıan the rates adopted in the neighbouring taluks of Yedatore and Attikuppa, but will be seen that my proposals carry with them an immediate increase on the ɔccupied area of nearly Rs. 34,000 and, however justifiable it might possibly be, to itch my rates higher, I am anxious to avoid the sudden increase in the Government emand which this would involve. The rate which is most open to criticism is that roposed for wet lands under channel irrigation, *viz.* Rs. 10, but a fair increase of ɜvenue, as will be seen further on, results. As regards dry crop rates although a igher maximum than Rs. 2 might fairly be adopted, the increase is very great and am inclined to recommend Government to rest satisfied with the increase which ıy proposals give. Perhaps the remarks which I have made at para 7 may be onsidered to justify in some measure the course I have adopted. It would of ourse have been impossible to have proposed *lower* rates for dry crop land, those ow recommended being precisely the same as were used for the Attikuppa aluk. My maximum rate for garden land of Rs. 10 and an average, as will be een further on, of only Rs. 3-9-6 per acre contrasts rather curiously with the rates pproved of in 1866 quoted at para 15, my rates too, low as they are, it will be bserved further on give a very fair increase on the existing garden assessment.

20. The result of my proposals then, as regards the occupied lands, is shown n the following statement:—

Group.	No. of Villages.	Dry Crop.			Rice.						Garden.			Total.		
					Ordinary.			Channel.								
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
I	55	31,654	30,487	0 15 4	175	702	4 0 2	1,235	9,155	5 13 9	2,302	8,293	3 9 8	35,666	48,637	1 5 1
II	92	51,105	41,818	0 13 1	356	1,387	3 14 0	1,486	8,077	5 7 0	1,544	5,522	3 9 4	54,491	56,804	1 0
2	147	82,959	72,305	0 13 11	533	2,089	3 14 0	2,821	17,232	6 1 9	3,844	13,815	3 9 6	90,157	1,05,441	1 3

The above results require no particular comment.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue)—dated 11th July 1887.

21. The area and assessment of the assessed arable lands available for cultivation are next shown :—

Group.	No. of Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	55	4,308	3,442	0 12 9	38	174	4 9 3	87	294	3 6 1	4,433	3,910	0 14 1
II	92	7,020	4,666	0 10 8	26	108	4 2 5	35	96	2 11 11	7,081	4,870	0 11 0

These waste lands are inferior to those under occupancy, but not so much so as to preclude their being brought under cultivation in time.

22. The next statement exhibits the area and assessment of the minor inam lands :—

Group.	No. of Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	55	3,045	2,704	0 14 8	107	542	5 1 1	195	742	3 12 11	3,347	4,078	1 3 6
II	92	2,730	2,102	0 12 4	117	482	4 1 11	30	99	3 4 10	2,877	2,683	0 14 11
2	147	5,775	4,896	0 13 7	224	1,024	4 9 2	225	841	3 11 10	6,224	6,761	1 1 5

23. Finally for the purpose of comparison, the whole area and assessment of the Government arable land, occupied waste and inam, are shown in juxta-position with the collections of 1885—86 :—

Group.	Number of Villages.	By Old Accounts.		By Survey.							
		Fijavari.	Collections.	Government Occupied.		Government Waste.		Inam.		Total.	
				Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12
I	55	2,725	30,763	35,666	48,637	4,433	3,910	3,347	4,078	43,446	56,625
II	92	3,614	40,848	54,491	56,804	7,081	4,870	2,877	2,683	64,449	64,357
2	147	6,339	71,611	90,157	1,05,441	11,514	8,780	6,224	6,761	107,895	1,20,982

24. In order to make the effect of the proposed settlement still more clear, the following statement contrasts the average rates under the old and new systems respectively, under each head, for the occupied lands :—

Description of Land.	Acres by Survey.	By Old Accounts.		By Survey.	
		Collections.	Average Rate.	Assessment.	Average Rate.
1	2	3	4	5	6
Dry Crop	82,959	43,897	0 8 6	72,305	0 13 11
Rice (channel)...	2,821	16,678	4 15 7	17,232	6 1 9
Rice (ordinary)	533			2,089	3 14 9
Garden	3,844	10,225	2 10 7	13,815	3 9 6
Miscellaneous...	...	811	...	...	...
Total.....	90,157	71,611	0 12 2	1,05,441	1 2 9

Unfortunately the distinction into ordinary and channel irrigated rice land cannot be obtained from the old accounts, so I have had to show both under one head. The same remark applies to the distinction between rice and garden in the old accounts and although I have shown them separately, the figures cannot be relied on. Still enough is shown to give a very fair idea of the general effect of the proposed settlement. Looked at intrinsically, the proposed rates are very moderate and, considered with the very great suppression of the true area shown at para 14 and the really high rates shown by Mr. Barker at para 9, the proposed settlement cannot but be regarded as very favorable to the ryots.

25. The grazing in 1885—86 realized only Rs. 923, apparently a very low figure, but in view of the curtailment of the unoccupied area for purposes of sale of grazing which may be necessary at the settlement in assigning free pasture, &c., I shall keep my estimate at the same figure.

26. The local cess of one anna returned, in 1885—86, Rs. 5,735 ; it will now be Rs. 6,590 on Government occupied lands and Rs. 423 on minor inam lands, in all Rs. 7,013.

27. The amount of irrigation cess to be annually credited to the District Irrigation Fund will be about Rs. 1,950 ; the amount will vary annually in accordance with the garden and rice lands under occupancy each year.

28. In conclusion, I will briefly sum up the anticipated results of the proposed settlement. Leaving out all calculation of local cesses or of grazing, there will be an immediate gain to Government of Rs. 33,830. Out of this however will have to come the pay of village officers and the contribution to the Irrigation Fund, both together amounting probably to about Rs. 8,000. The amount is still further liable to diminution by resignations at the time of settlement, although I must confess that I do not anticipate any loss from this cause, I recommend the proposed settlement with full confidence in its suitability.

29. The usual classwar statement as well as a sketch map of the Taluk are appended.

30. A list of inam villages showing the kind of survey to which each was subjected is attached.

31. I have been unable to submit this report earlier, several important returns relating to the past revenue history of the Taluk having been received from the Amildar at the close of the Xmas holidays.

32. I propose to give out the rates as soon as ever the Phutpahani can be completed and shall therefore feel much obliged by as early sanction as possible being accorded to these proposals.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

From the Deputy Commissioner, Mysore District, To the Superintendent of Revenu Survey and Settlement, Mysore, No. 1807, dated Camp Chamarajnagar, 19th June 1887.

I have the honor to return your letter No. 895, dated 17th instant, with i enclosures, to the address of the Chief Secretary which had been sent to me unde cover of letter No. 856 of the same date, and beg to state in reply that the maximu rates proposed by you appear to me to be very fair, in fact, as far as I know, it just about what the ryots expected as the result of the survey. I have hardly an remarks to offer on the report so ably drawn up by you.

From the Assistant Superintendent, in charge of 'M' Classing Establishment, To the Deputy Superintendent, Revenue Survey, Mysore, No. 10 of 1886, dated Bangalore, 26th July 1886.

I have the honor to forward my report on the Mysore Taluk, the classificatic of which has been carried on and completed this season.

2. GENERAL DESCRIPTION.—The Taluk lies between the river Cauvery and i tributary the Kapila, the former bordering it for a few miles in the north-west, th latter touching its south-eastern corner. The nature of the country is undulatin There are very few hills, the only one of importance being Chamundibetta, whic overlooking the town of Mysore rises to a height of a thousand feet above it. I the south-west there is a little scrub jungle, and throughout the Taluk, in nullal and low-lying places, wild date trees abound.

3. EXTENT AND AREA.—Its length from north to south is about 23 mil and the breadth is about the same. The area is 182,219 acres, or 284·7 squa miles.

4. DRAINAGE.—The river Cauvery receives the drainage of the northern ha of the Taluk, the Kapila that of the southern, the drainage being north and south.

5. SUB-DIVISIONS, VILLAGES, &c.—The Taluk is divided into eight hoblis. Th distribution of villages is shown in the form below :—

No.	Name of Hobli.	Government Villages.	Sarva Inam.	Jodi Inam.	Kayamgutta.	Kavals.	Total.
1	Mysore	15	...	...	...	...	15
2	Sindavalli	27	7	...	2	...	36
3	Yelval	20	2	...	1	...	23
4	Varkod...	20	4	...	1	...	25
5	Navashahar	5	...	...	...	...	5
6	Lingambudhi	25	2	1	...	...	28
7	Anandur	17	4	...	...	1	22
8	Kudanhalli	18	2	...	...	...	20
8	Total.....	147	21	1	4	1	174

A re-arrangement will have to be made to some extent, as, at present, villages belonging to different hoblis are intermixed. For instance, seven of the Sindavalli villages are disconnected from their hobli and included in the Kudanhalli, and four are situated in the Lingambudhi Hobli. One of Kudanhalli is in the Lingambudhi Hobli, one of Lingambudhi in Sindavalli, and two of Mysore in the Varkod Hobli. In other respects, the Anandur, Yelval, Mysore and Sindavalli Hoblis are of convenient size and shape, but the Lingambudhi and Varkod Hoblis are long and straggling, and consequently not easily supervised by the Shekdars. The Navashahar Hobli seems unnecessarily small, having but five villages.

6. IRRIGATION.—But a small portion of the land in the Taluk is under irrigation and that is chiefly under channels from the Cauvery and Lakshmantirtha. Only a few of the tanks are strictly irrigation tanks.

Channels.—The channels are the Virjanadi, Devaraj and Anandur. The two first, taken from the Cauvery above Seringapatam, flow through a portion of that Taluk before they enter Mysore. The Virjanadi irrigates the lands of Kalsavadi village in Mysore Taluk, and feeds the Ankanhalli tank in the village of Harohalli Varkod Hobli. The Devaraj irrigates the lands of Lakshmipur, Naganhalli and Kesare. The Anandur channel is taken from the Lakshmantirtha river at Sagarkatte, and is joined by the Tippur channel from the Cauvery just below the Sagarkatte anicut. The Tippur channel has a length of 21 miles, and irrigates the lands of 15 villages of the Yedatore Taluk before it joins the Anandur channel. The following village lands are irrigated by the Anandur channel, *viz.* Ramenhalli Cholenhalli, Hoskote, Kalnathpur, Yedehalli, Anandur, Subramanyapur and Vundavadi. Cane and rice are the chief crops under the two first mentioned channels, rice under the Anandur. But gardens of arecanut, cocoanut, plantain, &c., are numerous under all three.

Tanks.—There are but 361 tanks (including kattes) in the Taluk, of which the following are first class, *viz.* Kukarhalli, Dodkere, Dalvayikere, Karanji and Ankanhalli. The Kukarhalli is mainly used to supply the town of Mysore with water but a few gardens below are benefited by it.

The Dodkere of Mysore benefits, by percolation, a long stretch of gardens.

The Dalvayikere, just outside Mysore, is little used for irrigation.

The Ankanhalli irrigates several acres of rice land. It retains water throughout the year, but only one crop of rice and no cane is grown below it at present. Other good tanks are Varana, Rayankere, Harohalli and Lingambudhi.

The Varana is a fine tank, but its bed is shallow. It was dry this year in April, but in good seasons holds water sufficient for two crops of rice and for sugarcane.

The Rayankere is an excellent tank, but, owing to the upper portion of it being reserved as kaval for Palace elephants and cattle, it is not allowed to fill. The weir which is now out of order, is to be repaired only sufficient to prevent further reduction in the present capacity of the tank. The water in the tank being thus limited, there is some dispute about the right to draw from it for some of the fields below.

The Harohalli was formerly fed by the Virjanadi channel, but its water does not reach it now, the channel being out of repair between the Ankanhalli tank and this one. There are a few neglected gardens, and a little rice immediately below it and lower down, cane is grown.

The Lingambudhi is a good tank, but the cultivation below is insignificant. The rice lands are few, and the gardens have a neglected appearance.

7. Soils.—In rice and garden lands the soils are generally of superior quality, but under the channels some are poor. In the dry lands, though very good in some parts, they are mostly shallow and stony with a large admixture of sand. They vary very much in some fields both in quality and depth. The prevailing color is red.

8. Crops.—*Gardens.*—Cocoanuts are largely grown, with arecanut, plantain, betel-leaf, graft mangoes, papai, guavas, oranges, limes, tamarinds, &c. Chillies, onions, vegetables, &c., are extensively cultivated in the vicinity of the town of Mysore, and in the Kudanhalli and Lingambudhi Hoblis along the banks of streams, flowing from the Rayankere, Dalvayikere and Varana tanks and from Chamundi hill. The best tree gardens are in the Mysore, Yelval and Anandur Hoblis. Comparatively few exist in other hoblis. As a rule, excepting those under channels, the tree gardens are not "Pátha sthal." Those under tanks benefit indirectly by their position below them. Others, again, have only the advantage of low-lying situations apart from any possibility of being artificially irrigated, except from wells.

Rice.—Except under channels and under the Ankanhalli and Varana tanks rice is little cultivated. The chief kinds produced are 'Sannakki,' 'Bolmalligo,' 'Dhappakki' and 'Kaddi akki'. Double crops are nowhere obtained at present.

Sugar-cane.—Cane is grown under the Virjanadi and Devaraj channels, chiefly 'Pattapatti.'

Dry crops.—Ragi, jola, valleyellu, huchyellu, haraka, navane, kambu, avare, togari, hurali, hesaru, alasandi and kadale are the chief dry crops. There are two seasons for sowing, *viz.* the 'Karu' and 'Hainu.' The former opens in April or May, the latter in July. Double crops are usually obtained throughout the Taluk.

9. Rates.—The rates on dry lands vary from Re. 0—1—1 to Rs. 4—10—8 per Krishnaraj kolaga of 3,200 square yards. On wet lands, under channels, they range from Re. 0—4—8 to Re. 0—11—8 per kolaga of 500 square yards. Under tanks, from Re. 0—4—2 to Re. 0—11—8. The highest rates on wet lands are in the Navashahar Hobli, *viz.* Rs 4—7—2 per kolaga. The lowest are in the Yelval Hobli, *viz.* Re. 0—1—7.

Sub-letting Rates.—Lands are sub-let on gutti for a half and a third share of the produce.

10. Wages.—At harvest time men and women receive in kind from a half to one kolaga of grain per day. Ordinary wages in money are from 2 annas 8 pies to 4 annas for a male, and from 1 anna 8 pies to 2 annas 8 pies for a female cooly.

11. Manufactures.—The manufactures are unimportant. In the villages coarse cloths and cumblies are made. In the town of Mysore and in kasaba villages brass and copper utensils and fine cloths are manufactured.

12. Roads.—Roads radiate in all directions from the city of Mysore-northward, to Bangalore through Seringapatam, southward to Nanjangud and to Heggaddevankote; eastward to Mahadevapur, Bannur and Tirumakudlu-Narsipur; westward to Hunsur through Yelval, whence roads branch off to Yedatore and Seringapatam.

13. Markets and Fairs.—The only jatra of consequence is that which takes place once a year on Chamundi hill, at which six or seven thousand persons assemble. This being a one day's jatra, little trading is done. Weekly markets are held at Sagarkatte (Anandur Hobli), Kasaba Yelval, Chatanhalli (Sindavalli Hobli), Mysore, and Hosahalli (Varkod Hobli).

14. Exports and Imports.—A considerable trade is carried on with Bangalore and other places in paddy, ragi, jola, dál, gram, green gram and chillies. From Madras, Tellicherry, Cananore, Dharwar and Bombay, glass wares, iron implements, salt, arecanut, wheat, ghee, paper, &c., are imported, whilst the exports to these places are gingelly seeds and castor-oil. Jaggory is imported from Seringapatam, Tirumakudlu-Narsipur and Yedatore.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

15. RAIN-FALL.—Statement showing the quantity of rain during the years 1881 to 1885 taken from the Mysore Jail Register.

Months.	1881.		1882.		1883.		1884.		1885.		Total.		Average.

December	...	38	...	10	4	4	...	23	3	61	8	36	1	67·1
Total.....	24	7½	37	70	7	69	21	50	30	54	151	50½	30	30

The above is an extract from the Mysore Jail Register. It shows for the past five years an average rain-fall of 30 inches, 30 cents. The register kept at the Taluk Cutcherry gives an average of 28 inches, 28 cents. It will be observed that rain is fairly well distributed throughout the year, and that the heaviest falls are in May and October.

16. HEALTH.—The Taluk is reputed to be a fairly healthy one. Malarial fever and dysentery are prevalent at certain seasons. Cholera and small-pox periodically appear and cause more or less loss of life especially in the town of Mysore, but are not so frequent or lasting as they used to be in consequence of improved sanitary arrangements.

17. POPULATION.—Up to date, I have not succeeded in obtaining from the Taluk Amildar the record of the population as per Census of 1881. That of 1871 showed a total of 126,930 persons.

18. REMUNERATION AND HAKS OF VILLAGE SERVANTS.—Patels have no miras. Shanbhogs, besides their pay from Government, hold inam land and receive 'Mashik,' or small payment in money, of from one anna two pies to one rupee per 'Kula' and from one to two kolagas of grain. Totis or Chakris get as miras from four to eight 'Manas' of grain with a bundle of straw at harvest time, and hold inam land in some villages.

19. The condition of the ryots seems everywhere good. They possess a fertile soil, for even the poorer dry lands are capable of yielding two crops in the year, and they have a ready market in Mysore itself for much of their produce.

APPENDIX

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),— dated 11th July 1887.

No. 4557-66—Cir. 111, dated 11th July 1887.

Order thereon.—The papers read above relate to the revision of the existing assessment in 148 Government villages (including 1 kaval) comprising the Mysore Taluk. The head-quarters of the taluk is the city of Mysore which has the large population of 60,292 according to the last Census. From the Mysore city which is almost in the centre of the taluk, there radiate an extensive system of roads in all directions and very great facilities are thus afforded for the disposal of every kind of produce grown in almost every part of the taluk. The Mysore State Railway from Bangalore enters the taluk from the north, adding greatly to the increasing trade of the surrounding country.

2. The climate is fairly healthy. The rain-fall which averages about 30 inches per annum is well distributed. The taluk is favorably situated for both the south-west and north-east monsoons, and was not, as a whole, much affected by the famine of 1876—78, though doubtless the dry cultivation must have considerably suffered. A small portion of the taluk is irrigated by the Virjanadi and Devaraya channels in the east and by Anandur channel in the north-west.

3. For purposes of the settlement, it is proposed to divide the villages of the taluk into two groups, with reference to their proximity to the city of Mysore and to the means of communication and irrigation, and the Superintendent recommends the adoption of the following maximum rates:—

I Group (55 villages) Maximum Rate.	Rs.	As.	P.	II Group (92 villages) Maximum Rate.	Rs.	As.	P.
Dry Crop	2	0	0	... ...	1	12	0
Rice (ordinary) ...	8	0	0	... ...	8	0	0
Rice (under channel) ...	10	0	0	... ...	10	0	0
Garden	10	0	0	... ...	10	0	0

4. These rates as applied to the area under occupation give average rates which compare very favorably with those prevailing in the neighbouring settled Taluks of Yedatore and Attikuppa, as shown in the subjoined statement:—

Description of Land.		Attikuppa.						Yedatore.						Mysore.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

5. The following statement contrasts the average rates under the old and the new systems :—

Description of Land.	By Old Accounts.			By Survey.	
	Acres by Survey.	Collections	Averge Rate.	Assessment.	Average Rate.
1	2	3	4	5	6
Dry Crop	82,959	43,897	0 8 6	72,305	0 13 11
Rice (channel)	2,821	16,678	4 15 7	17,232	6 1 9
Rice (ordinary)...	533			2,089	3 14 9
Garden	3,844	10,225	2 10 7	13,815	3 9 6
Miscellaneous	...	811	... .	...	... ...
Total.....	90,157	71,611	0 12 9	1,05,441	1 2 9

6. The result of the proposed settlement is a net increase to the revenue of Rs. 33, 830, but it will be noted that this increase is mainly due to actual areas of occupied lands being correctly ascertained and brought to book by the Survey. It is noteworthy that, in this taluk, suppression of the exact occupied area has prevailed to a very large extent. Out of the increase of revenue anticipated, Rs. 8,000 must however be deducted on account of the pay of village officers and the contribution to the Irrigation Cess Fund.

7. The proposed rates are in themselves very moderate, and highly favorable to the ryots and His Highness the Maharaja's Government accordingly sanction the introduction of the proposed settlement with the usual guarantee for 30 years.

8. The attention of the Deputy Commissioner is invited to para 5 of Mr. Barker's report, and he is requested to take the necessary steps to rectify the irregularities of hobli boundaries therein referred to.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent of Revenue Survey.
The Deputy Commissioner, Mysore District.
The Director of Agriculture.
The Deputy Commissioners of other Districts for information.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

READ THE FOLLOWING PAPERS :—

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Dewan of Mysore, No. 10, dated 6th April 1887.

I have the honor to forward the marginally noted papers relating to the proposed revision of the assessment of the Mulbagal Taluk of the Kolar District.

1. Colonel Rutherfurd's report No. 133, dated 10th March 1887, with accompaniments.
2. Survey Superintendent's letter No. 1095 of the 12th idem.
3. Kolar Deputy Commissioner's letter No. 1785—1119 of the 15th idem.

2. There are but few points left for me to notice, the Deputy Superintendent having in his report placed the whole plan of the settlement and its general effect very clearly before Government.

3. Before Lieutenant-Colonel Rutherfurd's proposals were put into final shape, the general lines upon which the proposed settlement should be framed were most carefully discussed between him and myself. It became at once obvious that the taluk under report, like most of the taluks of the Kolar District hitherto settled, had suffered most severely from the inequality of rates resulting from an unskilful commutation of the batayi to the nagadi system of assessment. The rates worked out by what is known as the "sarasari" system were necessarily purely fortuitous and the consequence has been that a large extent of land has been thrown out of cultivation from this cause alone, apart from the influence of the rise and fall of prices or of good or bad seasons. As noticed by the Deputy Superintendent at para 11 of his report, the collections of 1865—66 were no less than Rs. 60,981 higher than the collections of 1880—81. The fluctuation of the realizations year by year has been, in short, most abnormal and could never have occurred if the total demand had been fairly distributed. To make matters worse, the rates kept in readiness to impose upon wet lands when applied for for cultivation have been far too high and not in any way based upon the relative value of the soil and water-supply.

4. It may fairly be presumed that the lands kept in occupancy were those which bore the lighter share of the general assessment and no uneasiness need be felt that the effect of the proposed settlement is to increase the demand on the occupied land by some Rs. 25,000. What the taluk requires is an equal distribution of the general assessment and this the proposed settlement may fairly claim to have accomplished and that too by the use of rates intrinsically moderate. From this increase of Rs. 25,000 will have to be deducted the pay of village officers undertaken by Government at a probable cost of Rs. 6,500, nor must it be forgotten that the ryots are being relieved of the payment of miras to Shanbhogs and Patels, by no means an inconsiderable item. Then the annual contribution to irrigation fund will be about Rs. 5,600.

5. Bearing in mind the above facts and that all the officers, including the Deputy Commissioner, who have had the opportunity of expressing their opinion on the subject, agree in regarding the taluk under report as possessed of considerable natural advantages, I think the proposed settlement cannot but be regarded as otherwise than favorable to the ryots. The population is numerous and healthy, and the general position of the taluk with reference to means of communication is decidedly good, while the wet and garden lands yield a very large proportion of sugar-cane. The rates which are now proposed, viewed simply as rates, are far lower than any rates which the ryots have been in the habit of hearing of as may be readily understood by referring to para 12 of Lieutenant-Colonel Mackenzie's report.

6. I may in conclusion state that the rates for the taluk under report were not finally adopted until those for the Chintamani Taluk, but upon which I have not yet reported, had been fixed, as the latter intervenes between Mulbagal and already settled taluks. The rates for Mulbagal will therefore be found to be perfectly consistent with, but perhaps a very little lower than, those in adjoining Taluks settled or ready for settlement. I should have preferred to have taken up the Chintamani Taluk for settlement before Mulbagal, but its size and the extreme difficulty I have had in collecting the data necessary for my report rendered such a course impossible.

7. I confidently recommend the settlement of the Mulbagal Taluk now proposed and hope to be able to commence giving out the rates about the 20th instant and shall therefore feel much obliged by early sanction.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

From the Deputy Superintendent, Mysore Revenue Survey, To the Superintendent, Mysore Revenue Survey, No. 133, dated Yelval, 11th March 1887.

I have the honor to submit the following proposals for the revision of th assessment of the Mulbagal Taluk of the Kolar District.

2. The accompanying joint report prepared by Colonels Mackenzie and Cowi the Officers in charge of the Classing Operations, contains much useful and interestin information, and will be referred to, whenever necessary, in the course of my repor

3. The Mulbagal Taluk is divided into the Maganis shown below :—

No.	Name of Magani.	Government Villages.	Sarva Inam.	Jodi Inam.	Kayamgutta.	Total.
1	Mulbagal	51	6	1	1	59
2	Avani	66	1	9	2	78
3	Yeldur	60	...	5	5	70
4	Dugsandra	41	1	...	...	42
5	Bairkur	62	1	3	2	68
6	Mahayakanhalli	84	5	4	2	95
	Total.....	364	14	22	12	412

4. The taluk is compact in shape and of convenient size ; it is divided into two more or less equal parts by a range of rocky hills running north and south ; the south-eastern portion is very hilly, covered with scrub jungle and almost inaccessible. The northern portion of the Dugsandra Magani is also covered with dense scrub jungle. The climate is on the whole healthy, but fever is prevalent during the cold weather months. The rain-fall is stated to be, on an average, 23·5 inches, and is fairly uniform throughout the taluk. The people depend chiefly on the north-eastern monsoon for filling their tanks which are very numerous, and below some of which double crops are raised. There are no forests or kavals in the taluk.

5. The resources of the taluk, so far as ascertained during the classification, are shown in the following statement :—

Government Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.	Remarks.
1	2	3	4	5	6	7	8	9
364	9,771	44,742	326	14,339	7,081	2,436	10	

The figures in column 3 represent the population of the Government villages only. According to the Census of 1881, the population of the whole taluk was 44,137. During the last five years, therefore, if the large number of inam villages be omitted, there has been a substantial increase. Compared, however, with the

population of the whole taluk prior to the famine (58,051), there is a difference of more than 13,000. According to the survey figures given above, the ratio of population to the square mile is 137 ; on the cultivated area the number of souls is 546, an unusually large proportion, which, if taken in connection with the large number of carts and ploughs specified above, would appear to indicate the existence of considerable prosperity amongst the agricultural community. The figures in column 5 represent plough cattle only.

6. The following statement shows how the lands of the taluk have been divided :—

Description of Land.	Government.		Inam.		Total.		Grand Total, Government and Inam.
	Occupied.	Waste.	Occupied.	Waste.	Occupied.	Waste.	
1	2	3	4	5	6	7	8
Dry Crop	40,690	30,598	9,664	...	50,354	30,598	80,952
Rice	8,672	3,872	3,284	...	11,956	3,872	15,828
Garden	3,251	218	437	...	3,688	218	3,906
	52,613	34,688	13,385	..	65,998	34,688	100,686
Unculturable area including roads, village sites, &c.							108,125
Area of Inam Villages							22,970
Gross area of the whole taluk, *i. e.* 362 square miles							231,781

7. The proportion of waste to occupied under the heads of dry crop and rice is very large, and can only be accounted for on the supposition that the old rates were oppressive. That they were unequal is evident from the statement in para 12 of Colonel Mackenzie's report. The extent of waste garden is also large, but it is, as a rule, of an inferior description.

8. In the subjoined maganivar statement are shown the incidence and pressure of the old assessment, obtained by applying the survey area to the old collections under the heads of dry crop, rice and garden :—

Name of Magani.	Dry Crop.			Rice.			Garden.		
	Acres by Survey.	Old Collections.	Average Rate.	Acres by Survey.	Old Collections.	Average Rate.	Acres by Survey.	Old Collections.	Average Rate.
1	2	3	4	5	6	7	8	9	10
Mulbagal	6,556	8,829	1 6 0	1,612	7,453	4 10 0	529	1,461	2 12 0
Avani	7,239	8,185	1 2 0	1,552	7,615	4 15 0	588	578	1 0 0
Yeldur	5,869	8,188	1 6 0	1,241	5,712	4 10 0	322	963	3 0 0
Dugeandra	5,648	6,361	1 2 0	1,078	4,898	4 9 0	213	466	2 3 0
Bairkur	8,327	9,402	1 2 0	2,117	9,341	4 7 0	615	1,012	1 10 0
Malnayakanhalli ..	7,051	7,633	1 1 0	1,072	7,510	7 0 0	984	972	1 0 0
	40,690	48,598	1 3 0	8,672	42,529	4 14 0	3,251	5,452	1 11 0

9. Colonel Mackenzie in para 12 of his report states that, in his opinion, the rates on every description of land are very moderate. In the case of dry crop lands, the rates given above show moderation and considerable uniformity. If the accuracy of the division of rice and garden in the old accounts could be depended upon, the above rates would be useful as indicative of the incidence of the old assessment on both kinds of cultivation, but, as a matter of fact, they are so intermixed that it is practically impossible to separate them. The rates, however, obtained as already explained, are certainly moderate enough on rice lands and are absurdly low on garden lands. In the former when sugar-cane is raised, a rate of Rs. 10 an acre is paid. As a rule considerably more land is cultivated than is paid for.

10. The following statement shows the actual collections for the past 25 years and the prices of the staple products of the taluk for the same period :—

Year.	Total Demand.	Remissions.	Total Collections.	Seers per Rupee.		Remarks.
				Paddy.	Ragi.	
1	2	3	4	5	6	7
1861—62 ...	1,12,391	16	1,12,375	23	18	
1862—63 ...	1,04,477	17	1,04,460	25	20	
1863—64 ...	1,09,061	14	1,09,047	27	21	
1864—65 ...	1,07,040	71	1,06,969	24	26

Five years' average ...		...	93,304	...	...	
Ten years' average ...		...	94,162	...	...	
Twenty years' average ...		...	1,01,969	...	...	
Twenty-five years' average ...		...	1,04,644	...	...	

11. If the figures in the above statement be correct, they show a very unsatisfactory state of things from a revenue point of view. For the first 13 or 14 years the collections appear to have been both large and pretty steady, the highest amount being realized, as usual, in the year 1865—66. In the year 1875—76, however, there was a sudden fall, and with the solitary exception of the year 1878—79, there has been a more or less steady downward tendency down to last year. One would have naturally expected to find the lowest revenue entered opposite the famine years 1876—78, but this is by no means the case. The lowest depth was reached in 1880—81 (Rs. 82,886), between which and the last year of the famine, there was a difference of Rs. 14,164, and the enormous difference of Rs. 60,981 between the collections of that year and those of 1865—66. It is difficult to account for some of the violent fluctuations in the collections, though there can be no doubt that the

batayi system with its subsequent conversion to nagadiyat was partly responsible The highest realizations from this mode of cultivation were in the year 1865—66 during the next two years they fell to less than half and subsequently never ever reached that amount. In fact, with the exception of year 1878—79, the collections under this head have been of no importance. The amounts under the head of remissions are so trifling as to call for no remark, except one of surprise that they were not larger especially during the famine years.

12. I propose dividing the Taluk into only two groups which, as well as the maximum rates, are shown in the following statement:—

Group.	No. of Villages.	Maximum Dry Crop Rate.	Maximum Rice Rate.	Maximum Garden Rate	
				Tank.	Well.
1	2	3	4	5	6
				Rs.	Rs.
I	264	2.12	8	12	8
II	100	2.8	...		

A glance at the accompanying map will show that, with the exception of the villages on the northern boundary and a few in the south-eastern corner of the Malnayakanhalli Magani, by far the largest number of villages are either actually on or within easy reach of one or other of the 3 main roads running through the Taluk The south-eastern portion of the Taluk is, no doubt, nearer the Madras-Bangalore Line of Railway (though at a considerable distance from it) than the more northern and western portions put into the first group, but, as already pointed out in para 4, this part of the Taluk is owing to its rugged and jungly nature practically inaccessible.

13. The results of my proposed rates on the occupied area are given below:—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
				R. A. P.			R. A. P.			R. A. P.			R. A. P.
I	264	31,519	39,082	1 4 0	6,573	39,259	6 0 0	2,519	15,819	6 4 4	40,611	94,160	2 5
II	100	9,171	9,707	1 1 0	2,099	12,668	6 1 0	732	5,032	6 14 0	12,002	27,407	2 5
	364	40,690	48,789	1 3 0	8,672	51,927	6 0 0	3,251	20,851	6 7 0	52,613	1,21,567	2 5

14. The following statement shows the area and assessment of the unoccupied arable waste:—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
				R. A. P.			R. A. P.			R. A. P.			R. A. P.
I	264	24,720	27,959	1 2 0	3,832	18,011	5 5 9	102	363	4 8 0	28,294	46,332	1 10
II	100	5,878	5,581	0 15 0	490	2,535	5 3 0	26	156	6 0 0	6,394	8,272	1 5
	364	30,598	33,539	1 2 0	3,872	20,546	5 5 9	218	1,019	4 11 0	34,688	55,104	1 9

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

15. The area and assessment of minor inam lands are given below :—

Group.	Villages.	Dry Crop.			Fire.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	264	7,863	9,559	1 4 0	2,621	15,873	6 1 0	330	2,176	6 10 0	10,818	27,648	2 9 0
II	100	1,798	1,839	1 0 0	662	4,092	6 3 0	107	802	7 8 0	2,567	6,732	2 10 0
	364	9,664	11,437	1 3 0	3,284	19,965	6 1 0	437	2,978	6 13 0	13,385	34,380	2 9 0

16. In the subjoined statement the result of the proposed rates on all the arable land occupied, waste and inam, is contrasted with the old collections :—

Group.	Villages.	As per old Accounts.	As per Survey.							
			Government Occupied.		Government Waste.		Inam.		Grand Total.	
		Collections.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11
I	264	75,938	40,611	94,160	28,294	46,832	10,818	27,648	79,723	1,68,640
II	100	20,641	12,002	27,407	6,394	8,272	2,567	6,732	20,963	42,411
	364	96,579	52,613	1,21,567	34,688	55,104	13,385	34,380	1,00,686	2,11,051

17. The grazing in 1885—86 realized Rs. 5,049. There is every probability of an increased revenue from this source in future, but for purposes of this report I have retained the same figures.

18. Under the head of Local Fund, the amount credited to Government was Rs. 7,765. Under the proposed settlement, it will be Rs. 7,598 on Government occupied lands, Rs. 2,149 on minor inam lands, or a total of Rs. 9,747.

19. The general result of the proposed settlement is shown below :—

	Rs.
Land Revenue of 1885—86	96,579
Local Fund do	7,765
Grazing do	5,049
	1,09,393
Survey assessment of occupied lands	1,21,567
Local Fund	9,747
Grazing	5,049
	1,26,362

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

20. There is thus an actual increase of the revenue from occupied lands of Rs. 24,988.

21. The amounts required for the pay of village officers and for the Irrigation Fund will be about Rs. 6,500 and Rs. 5,600 respectively.

22. The ryots will in future be relieved of all payments in cash or kind to the village officers, whose emoluments, as shown in detail in para 24 of Colonel Mackenzie's report, were of a varied description, and represented a substantial deduction from the produce of the ryots' holdings.

23. In the following statement are given a few instances of decrease and increase of assessment illustrative of the unequal incidence of the old rates :—

In Classwar Statement.		Name of Village.	Old Collections.	Survey Assessment.	Percentage of Decrease and Increase.	Average Dry Crop Rate.	Average Rice Rate.	Average Garden Rate.	Remarks.
No.	Class.								
1	2	3	4	5	6	7	8	9	10

Report on the Mulbagal Taluk of the Kolar District prepared by the Officers in charge of Classing Operations during the season of 1884—85.

Boundaries.—The Taluk is situated in the east of the Kolar District. It is bounded on the north by the Chintamani Taluk and the Punganur Zamindari of the North Arcot District, Madras Presidency; on the east by the Punganur Zamindari on the south by the Bowringpet Taluk and on the west by the Kolar Taluk.

2. *Extent and Area.*—The Taluk is compact in shape; the head-quarters being conveniently situated near the centre. From north to south the extreme length is about 20 miles, and the breadth from east to west about 21 miles. There are two inam villages to the south quite detached from the taluk, which should be transferred to Bowringpet; and four villages to the north also quite detached, which should be tranferred to Chintamani. The total area of the Taluk is about 343 square miles or by the Revenue Survey measurement 219,575 acres.

3. *General Features.*—The chief feature in this Taluk is the quantity of rock cropping up everywhere in the shape of rocky hills and hillocks, composed of loose boulders of gneiss; large boulders promiscuously scattered about everywhere, and masses of sheet rock all over the country. There are some rocky hills of considerable altitude near Mulbagal and Avani. The watershed runs nearly north and south through the centre of the Taluk. The fall of the land to the west being gentle, and to the east abrupt and steep. To the west there are rolling downs, broad valleys, and generally shallow tanks. To the east there are narrow valleys, deep tanks, much

broken ground and rocky ridges; a group of villages at the south-east of the Taluk belonging to the Malnayakanhalli Magani is extremely wild and rugged, the ridges covered with scrub jungle, and the narrow valleys cultivated with rice and cane. The northern part of the Dugsandra Magani is covered with low scrub jungle. Another conspicuous feature in this Taluk is the immense number of tanks, no less than 460, large and small, having been noted and examined by the officers in charge of classing operations.

4. *Population by the Census.*—The population of the Taluk according to the Census of 1881 amounts to 44,137, giving an average of 128 to the square mile.

5. The following statement shows the sub-divisions of the Taluk with the number of villages, &c., in each magani:—

No.	Name of Magani.	Government Villages	Sarvamanya Inam.	Jodi Inam.	Kayam-gutta.	Amani Keres.	Kavals.
1	Yeldur	59	...	5	5	1	...
2	Dugsandra	39	1	...	...	...	...
3	Bairkur	62	1	3	2	...	...
4	Mulbagal	51	6	1	1	...	...
5	Avani	66	1	9	2	...	...
6	Malnayakanhalli	83	7	5	1	1	...
	Total	360	16	23	11	2	...

6. *Rivers, Drainage, &c.*—There are no rivers to speak of; the whole of the drainage west of the watershed goes to form the Palar river. That of the east of the watershed also falls into the Palar river somewhere in Her Majesty's Territories. A sketch of the drainage of the Taluk, prepared by Major Cowie, is appended to this report, from which it can be comprehended at a glance.

7. *Irrigation Channels.*—There are two or three dams across a nullah which conveys the drainage from the Mulbagal hill to the large tank at Nangli. From these dams small channels are led off for the irrigation of rice and cane in a few villages. The water in this nullah flows till about the end of March. These dams are supposed to be kept in repair by the villagers. About a dozen small villages of the Malnayakanhalli Magani have their lands irrigated from a nullah which runs down a narrow valley from the tank of Korvereddi village at the top of the valley. On both sides of this valley, fine crops of Vaisakh rice, panvel, cocoanuts, chillies and cane are raised. They raise a slight dam of sand across the nullah and divert the water into channels on each side and also raise it by budki from the nullah. On the 18th February a fine stream of water was flowing along the channels and a fair amount in the bed of the stream.

8. *Wells.*—Direct irrigation from tanks is greatly supplemented by wells or "gundis" in the atchkat. These "gundis" are usually open pits, only built up with stone where the yatam or kapile is placed. The water is usually raised by yatam or basket. Kapile wells are rare, there being only a few in the Avani and Malnayakanhalli Maganis. The water in these gundis was in most places close to the surface, often flush with it. In the narrow valleys of Malnayakanhalli Magani, the tank at the head of the valley is often not worth much, but the valley below is full of wells like talpurgis with a perennial supply of water. It often runs from these till the hot

weather, and then is raised by yatam. In the month of March when many tanks were quite dry, the wells in the atchkat were full of water, flush with the surface, so that cane could be watered or planted.

9. *Tanks*.—The whole country is covered with tanks. Including kattes there must be about 500 altogether. Most of the tanks to the west of the watershed have been put in good order by the Public Works Department. The bunds are nearly all revetted with stone and the sluices, &c., are in good order. The best tanks in the westward drainage are those of Meleri, and Uttanur and the Tailur Amanikere. To the eastward the tanks are generally far better, and a few of them, such as Marandhalli, Hoshalli, Sangsandra, Gudepalli and Mustur, have water the whole year through in ordinary seasons. Many tanks of the Malnayakanhalli Magani have the bunds in bad order, the revetment stones being round boulders which have slipped down and are lying at the foot of the bund. Very many bunds in this part are overgrown with prickly pear, and also with honge trees. The large tank at Kasaba Nangli has just been repaired by Government at an estimated cost of Rs. 22,000. A large expanse of land is irrigable from it, but the atchkat is intersected by one or two deep water-courses. These must be dammed before all the land can be irrigated. A large extent of land under this tank, though entered in the accounts as tari, has been waste for many years. No rice embankments are visible, and it is overgrown with prickly pear. It will take a deal of trouble to bring this land into cultivation, and only very low rates would induce the people to take it up. This tank was breached four or five years ago. There is a large tank at Byatnur immediately below the Nangli tank. The kodi of this tank is breached, and a deal of land is lying waste in consequence. The people are very anxious that this tank should be repaired. Most of the tanks in the Taluk held some water on the 20th March this season, and many of them had two months' further supply. While the greater part of Mysore was reported to be suffering from drought and want of water in this Taluk under most of the tanks, there were fine stretches of Vaisakh rice and sugar-cane in the most flourishing condition. This Taluk got the benefit of the rain in December when heavy rain fell at Madras. The tanks are usually filled by the north-east monsoon, and by all accounts this was not an exceptionally good season.

10. *Soils*.—The dry crop soil is generally poor, grey-sandy and apparently decomposed gneiss which is the rocky formation of the whole Taluk, except in the north-west of the Yeldur Magani, where far better dry crop soil of a red color is to be found. The hills here assume quite a different shape and formation—flat topped table lands—the formation being laterite which goes down to form the soil.

Rice lands are fairly uniform throughout the whole Taluk, and are generally of moderate quality, though occasionally good brown and black loam is met with. The deteriorating qualities in the wet lands are sand and clay, and efflorescence of potash is not uncommon. These remarks apply also to the garden lands. Where they grow cane on clayey soil, they usually put a top dressing of sand.

11. Crops.—*Dry Crops*.—Dry crops are ragi, tuvar, field beans, haraka, castor-oil, horse-gram, hutchellu, sajje, navane and the poorer kinds of millet in small quantities.

Irrigated Crops.—In the westward drainage where nearly all the tanks have come under the notice and attention of the Public Works Department, a great deal of rice land is lying waste, the general complaint of the people being that the waste-weirs have been so lowered that the capacity of the tank is not sufficient for the lands irrigable, and as a rule only one crop can be got during the year. These remarks however do not apply to the west of the Avani Magani, as owing to the proximity of rocky hills there is a greater supply of moisture and there is very little waste land under any of the tanks. To the eastward all the irrigable area seems to be under cultivation and there is generally sufficient water for the double crop, in some places even a double crop being taken off the same fields. The rice is nearly all *sambaire-nellu* rather a coarse variety, and a little san-nellu or fine rice.

Sugar-cane is common under nearly every tank and katte especially to the eastward, the usual kind grown being kemp-rastali, and a very little bile-rastali. These cane fields are very carefully manured and cultivated. The cane is very fine, generally 7 to 8 feet high and upwards, carefully tied in bunches and propped up with cross sticks. Two experiments were made in the Bairkur Magani, one by Major Cowie and one by Lieut.-Colonel Mackenzie. The value of the produce calculated for the acre in the first case came to Rs. 400, and in the second to Rs. 29. From this amount however about half must be deducted for all expenses connected with the cultivation. It is difficult to estimate the cost of the labor as the villagers seem to combine and assist each other. There are small patches of betel-leaf under many of the tanks, also some turmeric and a few supari trees here and there. There is a belt of cocoanut gardens along the nullah which runs from near Mulbagal to Kasaba Nangli, but the trees are for the most part unproductive. Chillies are grown pretty extensively and small patches of tobacco are found near the village sites.

12. *Rates.*—The following are the old rates as supplied by the Amildar :—

		Rs.	As.	P.		Rs.	As.	P.	
Dry crop	..	from 0	4	0	to	9	5	0	per kudu.
Wet land under tanks	..	from 0	4	8	to	1	2	8	
Do wells	.	from 0	9	4	to	0	11	8	
Ganna or Sugar-cane	..	from 0	14	0	to	1	7	4	
Chillar Bagayat	.	from 0	8	9	to	1	7	1	
Dhruva-pairu Bagayat	..	from 0	8	0	to	1	2	8	
Betel-leaf do	..	from 1	7	0	to	1	7	4	
Riyayat Kandayam	..	Rs. 0	1	6	both for dry crop and tari.				

Riyayat kandayam land means land formerly inam, such as kot-inam, &c., which has been resumed but given out at a much lower rate than ordinary kandayam land. The dry crop rates appear to be very moderate throughout the Taluk. In the Avani and Malnayakanhalli Maganis, it was observed that in rice land the ryots usually pay on much less area than they actually hold. The ordinary rice rates are pretty low, but the ganna or sugar-cane lands are highly assessed at about Rs. 10 per acre, but even on these lands they rarely pay for as much land as they actually hold. On the whole the present rates for every description of land appear to be very moderate. The following table shows the actual average rates prevailing in the different Maganis as ascertained at test when Shanbhogs were present : —

Magani.	Dry Crop.		Rice.		Garden.		Remarks.
	Rs.	As.	Rs.	As.	Rs.	As.	
Mulbagal	1	4	4	10	7	1	
Avani	1	8	3	15	5	2	
Malnayakanhalli	1	7	3	8	4	13	
Bairkur	1	6	4	0	...	...	
Dugsandra	1	3	3	14	4	7	
Yeldur	1	4	4	3	5	4	

13. *Wages.*—During harvest operations, men get paid 2 annas in cash or 3½ seers of ragi. Women get Re. 0—1—4 in cash or 3 seers of ragi. Ploughmen get only 2 annas a day. Carpenters, bricklayers and other professional workmen get from 4 to 12 annas.

14. *Markets.*—There is a weekly market at Mulbagal on Tuesday. A small one at Avani on Thursday and at Urkunti Mitlur in the Avani Hobli on Sunday, at Malnayakanhalli on Friday, at Taibur on Wednesday, at Kasaba Nangli on Friday, also at Kasaba Yeldur on Friday, at Uttanur on Saturday, at Agara on Wednesday and at Bairkur on Thursday. At these markets from 100 to 500 people assemble.

Outside of the Taluk, the people of the northern villages resort to Punganur and Ramasandra in the Punganur Zamindari. These places are 3 or 4 miles beyond the northern boundary.

15. *Fairs.*—There is a large fair held at Avani at the time of the Sivaratri. There is a car festival and the fair lasts about 15 days. It is chiefly a cattle fair and about 30,000 cows and bullocks are brought there for sale. There are usually from 10 to 15 stalls of brass and copper utensils brought from Vellore, Sitkal and Dharwar; about 55 cloth shops; about 100 shops of minor articles, such as rice, sweetmeats, turmeric, &c.; about 30 to 40 of bangles, cumblies &c.; 20 to 30 cloth-sellers' stalls; and from 30 to 35 of supari from Nagar and Bellary. Most of the cattle sold go to Coimbatore, Salem and Chittur, &c.

16. *Exports and Imports.*—Exports are ragi, rice, jaggory, tuvar, sweet-oil and honge oil.

Imports are Bengal-gram, wheat, udid, mung, supari, kottambari, mentya, opium, dry cocoanut, field beans, tuvar, &c.

17. *Manufactures.*—In Kasaba Tailar there are 80 looms for the manufacture of women's cloths, &c. Coarse cloth is manufactured in many villages throughout the Taluk and also cumblies, and bamboo basket and sieve work in a few villages only. Sugar is manufactured in Mulbagal and Kapila Maragu near Mulbagal. It is prepared by Musalmans employed by Brahmans, and is exported to Bangalore, Vellore, Salem and Madras.

18. *Roads.*—The high road from Bangalore to Madras runs through the middle of the Taluk from east to west. A made road from Bowringpet to Mulbagal runs through the Avani Hobli from south to north. A made road from Mulbagal to Srinivaspur goes diagonally from south-east to north-west across the Yeldur Magani. With the exception of the stony part north of Mulbagal, there are fairly good cart tracks from village to village along the top of the downs.

19. *Cattle, &c.*—Cattle are of a poor description generally, though there are plenty of good plough beasts, and a good deal of purchase and sale takes place at Bowringpet. There are plenty of sheep and goats.

20. *Grazing.*—Grazing is good on the extensive tracts of waste land. A short grass grows on these uplands which affords good grazing. Owing to the inherent moisture in the soil, patches here and there in hollows remain green well into the hot weather.

Firewood.—There is not much scrub jungle in the south of the Taluk except in the south-east of the Malnayakanhalli Hobli and the people have to cart firewood for the sugar mills from the Kangundi Zamindari of Madras. In the north of the Taluk there is a good deal of scrub and there they are better off.

21. *Trees and Forests.*—There are no forests, but the Taluk is well wooded (for Mysore). Honge trees grow in all the hollows and in the south of the Taluk, most of tanks have a border of these trees round the margin. The downs in the south of the Taluk are quite free of scrub jungle. Small topes of mango, tamarind, &c., are pretty common. In the northern part of Yeldur, and on the western boundary of the Dugsandra Magani, there are fine topes of mango, tamarind and a few ippe trees. Low and dense scrub covers the whole of the northern part of Dugsandra.

22. *Manure.*—The ordinary village refuse and cattle and sheep dung is used for dry crop and garden soils. For rice and cane, honge leaves are universally used. In the jungly villages of Malnayakanhalli where cattle are few, they have sheep brought from Her Majesty's Territory and for the droppings which they use for their cane, they feed the shepherd and give him 4 annas per day and some jaggory. Silt from tank beds is used as a top dressing for sandy fields.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

23. *Weights and Measures.*—The measure of capacity is the Krishnaraj kolaga=8 seers. The seer of ragi=80 rupees' weight. Measure of weight, one seer=24 rupees' weight; 40 seers=1 maund.

24. *Remuneration of Village Servants.*—Shanbhogs hold inam land and they get mirás from 4 to 24 seers of grain from each pattadar in addition to a cash payment of from 4 annas to Rs. 3. They are also supposed to obtain various emoluments, such as from 2 to 6 seers of jaggory from a sugar mill, from 2 to 4 ballas of oil from each oil-mill. From batayi dry crop they get from ½ kolaga to 1 kolaga. From batayi rice they get from ½ to 2 kolagas. They also get one of every ten baskets of tamarind fruit, one seer from each maund of sigekayi, and one seer from each khandi of hongekayi. In the jungly villages in the south-east, the Shanbhog gets no khushki mirás, there being hardly any dry crops, but he gets 10 kolagas for every khandi of paddy and also vartane from Re. 0—4—8 to Re. 1 from each pattadar. Owing to their emoluments being derived from so many different sources, it is impossible to estimate the total value of them in money. Patels enjoy inam lands and get two seers of grain per khandi in villages where there is batayi cultivation. Totis, Talvars and Nirgantis hold inam lands and get the usual mirás in the shape of grain from the ryots.

25. *Rain-fall.*—The average rain-fall for the last ten years amounts to 23·5 inches. This Taluk depends chiefly on the north-east monsoon for filling the tanks, it is but lightly affected by the south-west monsoon.

26. *Condition and Health of People.*—The bulk of the people speak Telugu and are of the caste called Marasu vakkaligars. The houses of the villagers are thatched but they appear to be kept clean and the situation of most of the villages has been well chosen, usually on an eminence. There are a few but not many deserted villages to be seen as the result of the famine in 1876—77. The ryots on the whole seem well-to-do. Many of the reddis or headmen are rich, have large holdings of sugar-cane, and lend money to the ryots. The houses of these men are often stone-built and conspicuous above the houses of the village. Many villages are walled round with solid stone, evidently built for protection in former days. Most villages in the eastern part of the Taluk are surrounded with a dense prickly pear hedge which must be very unwholesome. Prickly pear has overgrown this part of the Taluk and no effort seems made to destroy it.

The health of the people is generally good. Cholera is apt to be imported from the Madras side as it was in this year from a fair in the Kongundi Zamindari, and pilgrims going to and from Tripati sometimes import the disease. With this exception, the climate is decidedly salubrious and the water supply excellent.

From the Deputy Commissioner, Kolar District, to the Superintendent of the Revenue Survey, Mysore, No. 1785—1119, dated 15th March 1887.

I have the honor to acknowledge the receipt of your letter No. 1095 of the 12th instant giving cover to the report drawn up by the Deputy Superintendent, Mysore Revenue Survey, and calling for an expression of my opinion on the subject of the proposals for the revision of the assessment of the Mulbagal Taluk, and to state that I concur with Colonels Mackenzie and Rutherfurd in saying that the Taluk is favorably situated in all respects. The climate on the whole is healthy, and the rain-fall is on an average. The population is great, and their circumstances indicate the existence of considerable prosperity among the agricultural community. There are numerous tanks of both large and small sizes, and most of them are in a fair condition though a large proportion of lands below lie waste. Three important public high roads traverse the Taluk, and the line of the Madras-Bangalore Railway Stations is not too far. Besides, there exists every facility for exporting and im-

porting goods to the surrounding weekly markets held in Hobli Kasabas, and other large villages and towns. No doubt the old rates of assessments in the Taluks are in some instances unequal and oppressive and in others comparatively low. I am, therefore, in favor of imposing the proposed moderate rates of assessment to induce ryots to take up large extent of lands which are now lying waste and bringing no revenue to Government.

2. Under these circumstances, I am of opinion that the marginally noted rates of assessment are well suited to the circumstances of the Taluk and the condition of the ryots and may be adopted with advantage. The original report of the Survey Deputy Superintendent and map and classwar statements, &c., received with your letter under reference, are herewith returned.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

No. 4599-4610—Cir. 113, dated 11th July 1887.

Order thereon.—The papers above read relate to the revision of assessment in the Mulbagal Taluk, Kolar District.

2. The Taluk has considerable natural advantages, a fairly uniform rain-fall, a healthy climate and a large number of tanks, under which there is extensive sugar-cane cultivation. The Taluk gets more of the north-east than the south-west monsoon, and, as a consequence, the half of the taluk to the east of the watershed which runs almost due north and south consists of narrow valleys, rocky ridges and deep tanks, while in the western half there are rolling downs, broad valleys and shallow tanks. The tanks however depend mostly upon the north-east monsoon and direct irrigation from them is largely supplemented by wells in the atchkat lands. The tanks are essential not only on account of the direct irrigation derivable from them, but also as supplying the springs of wells in the atchkat which so largely aid the cultivation below. besides being the source of water-supply to neighbouring villages. This principle has an important bearing on the serial system of tank restoration when several tanks were abandoned in the Kolar District, but the matter is receiving careful consideration in the Public Works Department.

3. The substitution of the nagadiyat for the batayi system and the unequal and often high rates at which waste lands were formerly assessed in the absence of a definite system of classification of the soil, account for the large cultivable area of 30,598 acres of dry and 3,872 acres of wet land remaining waste, as well as for the great fluctuations in the past collections noticed in paras 10 and 11 of Colonel Rutherfurd's report.

4. The old rates of assessment were moderate on dry crop and rice lands, but absurdly low in the case of lands classed as garden by the Revenue Survey.

5. For purposes of the settlement, the Taluk is divided into two groups of villages, and the Superintendent proposes the following maximum rates :—

		1st Group.	2nd Group.
Dry	.. ..	2 12 0	2 8 0
Rice	.. ..	8 0 0	8 0 0
Garden	Well	8 0 0	8 0 0
	Tank	12 0 0	12 0 0

6. The adoption of these rates gives the following results on occupied lands :—

	Area, Acres.	Under old System.		As per Survey.	
		Collections.	Average Rate.	Assessment.	Average Rate.
Dry Crop	40,690	48,598	1 3 0	48,789	1 3
Rice	8,672	42,529	4 14 0	51,927	6 0
Garden	3,251	5,452	1 11 0	20,851	6 7
Total.....	52,613	96,579	...	1,21,567	...

It will be seen from the above statement that, under the Survey Settlement, the average rate on dry crop land is identical with the old rate, and on wet land it shows a slight increase which is quite moderate and reasonable. The difference between the old and the new rates in the case of garden land seems at first sight very striking; but it must be remembered that the Survey classification of "garden" involves a technical distinction which did not previously exist and that the lands classified by the Survey as "gardens" were not the "gardens" shown in the old accounts. Under such circumstances, any comparison between old and new rates must be misleading. The garden rate recommended for this Taluk has been the subject of further discussion with the Superintendent of Revenue Survey and the following information has been obtained regarding the incidence of the new and old rates:-

Description.	Acres by Survey.	New.		Old.	
		Assessment.	Average Rate.	Assessment.	Average Rate.
Gardens under Tank *and* Well	2,342	16,771	7 2 7	47,691	4 0 0
Gardens under Well or other source but no Tank...	909	4,080	4 7 10		
Rice	8,672	51,927	6 0 0		
Total.....	11,923	72,778	6 1 1	47,691	4 0 0

The Dewan quite agrees with Colonel Grant in the opinion that Rs. 4 per acre all round for such valuable land as the rice and garden lands of Mulbagal is very low indeed, and as the maximum garden rates now proposed are in themselves quite fair and very moderate and as they do not compare unfavorably with the rates in force in neighbouring taluks, the Government have no hesitation in sanctioning their adoption for this taluk.

7. The result of the proposed settlement on occupied lands is a total assessment of Rs. 1,21,567 or an increase of Rs. 24,988 as compared with the collection of 1885—86. Out of this amount Rs. 6,500 have to be deducted for the remuneration of village officers, and Rs. 5,600 have to be set apart for the Irrigation Cess Fund.

8. It is observed that the Inam villages of Rayasandra and Gopenahalli to the south of the Taluk and of (1) Chenegarpalli, (2) Kansalvarhalli, (3) Matakansandra and (4) Rajegondlahalli to the north lie quite detached from the other villages of the Taluk. The Deputy Commissioner is requested to report whether the former cannot be conveniently transferred to the Bowringpet Taluk and the latter to the Chintamani Taluk.

9. With reference to para 11 of Colonel Mackenzie's report, bringing to notice that a considerable portion of rice land under some tanks dealt with by the Public Works Department in the westward drainage is lying waste owing to the diminution of their capacity and the lowering of their waste-weirs, the Deputy Commissioner is requested to submit a detailed report as to what particular tanks this complaint refers to, the extent of their atchkat, the extent usually cultivated for 2 or 3 years before and after the repair of the tank by the Public Works Department and whether increase of capacity is now desirable or feasible.

10. The attention of the Secretary, Public Works Department, and of the Deputy Commissioner is drawn to the statements made in para 9 of Colonel Mackenzie's report to the effect (1) that the bunds of many tanks in the Malnayakanahalli Magani

are in bad order, the revetment stones having rolled down to the foot of the bund; (2) that many bunds are overgrown with prickly pear; (3) that the water-courses intersecting the atchkat lands under the Nangli tank require to be dammed; and (4) that the large tank of Byatnur should be put in order, so as to bring under irrigation the large area of rice land now lying waste below it.

11. The Deputy Commissioner's attention is further invited to the remark that the lands now lying waste under the Nangli tank require special treatment to induce ryots to take them up. If the rates of assessment fixed by the Survey Department offer no sufficient inducement for improving them and bringing them under cultivation, the Deputy Commissioner will submit proposals for giving out these lands on shraya tenure for 5 or 10 years.

12. With reference to para 26 of Colonel Mackenzie's report, the Deputy Commissioner will be requested to report what he proposes to do for checking the growth of prickly pear in the eastern part of the Taluk.

13. The Deputy Commissioner will issue a set of standing rules for the guidance of the Amildars concerned, regarding the sanitary measures required to check the periodical importation of cholera into the Taluk from the Kangundi Zamindari and other places in the Madras Presidency.

14. With the foregoing remarks, His Highness the Maharaja's Government sanction the proposed settlement with the usual guarantee for 30 years.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent of Revenue Survey.
The Deputy Commissioner, Kolar District.
The Secretary, Public Works Department.
The Senior Surgeon to the Mysore Government with reference to para 13.
The Director of Agriculture.
The Deputy Commissioners of other Districts.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

READ THE FOLLOWING PAPERS :—

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Dewan of Mysore, No. 109, dated 4th May 1887.

I have the honor to submit the following proposals for the revision of the assessment of the Chintamani Taluk of the Kolar District.

2. A report by Lieut.-Colonel Cowie, who carried out the classification, will be found attached. In this report Lieut.-Col. Cowie gives a great deal of interesting and useful information regarding physical characteristics, climate, crops and other points, the result of very close observation on his part, and by Colonel Mackenzie, whose notes, taken during classification, have been incorporated in the report.

3. The Taluk under report contains the following Maganis :—

No.	Name of Magani.	Government Villages.	Sarva Inam Villages.	Jodi Inam Villages.	Kayamgutta Villages.	Total.
1	2	3	4	5	6	7
1	Chintamani	79	2	3	2	86
2	Ambajidurga	64	..	4	3	71
3	Iragampalli	75	...	2	1	78
4	Munganhalli	35	...	2	1	38
5	Adagal	89	1	1	...	91
6	Muragamalla	94	...	10	1	105
7	Srinivaspur	70	...	4	2	76
8	Somayajanapalli	80	...	4	1	85
9	Nelavanki	71	..	6	2	79
10	Rayalpad	72	...	2	...	74
	Total.....	729	3	38	13	783

4. The proposed revision extends only to the 729 Government villages. The figures for the Inam villages, unless specifically otherwise stated, will not therefore appear in the various statements, statistical and otherwise, which are given in this report.

5. The Taluk under report is somewhat unwieldy from a revenue point of view, while the extraordinary number of villages into which it is divided cannot but be regarded, from the same point of view, as otherwise than a positive evil. The head-quarters are somewhat inconveniently situated at Chintamani. There is a Deputy Amildar at Srinivaspur.

6. There are two distinct tracts or natural divisions of this Taluk, fully described by Lieut.-Colonel Cowie, at para 3, the "Kalshime", rocky and inaccessible, representing in general terms the northern portion and the "Kemp bail shime" or open rolling country, representing the southern portion of the Taluk. The latter has the advantage of being fairly level and accessible, independently of made roads and of possessing soils of intrinsically better quality. In the northern or stony tract these advantages are in a measure counterbalanced by greater facility in storing the drainage, both tanks and wells being very good, while some of the dry crop lands occupy low-lying and favorable positions in the valleys.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

7. The rain-fall which may be roughly estimated at a little under 30 inches is pretty uniform over the whole tract.

8. The soils, without ever approaching the "reghar" or true black, are of a fairly high order, those of the wet and garden lands admitting, with the aid of the very good water-supply of this Taluk, of a very large proportion of sugar-cane which is the distinctive product of all the wet lands, including garden, being raised. What are generally known as the superior garden products, such as betelnut, cocoanut, &c., are raised in very small quantities and are poor. Cocoanuts especially appear to thrive so badly as to be scarcely worth cultivating.

The dry lands produce the ordinary crops raised on the table land of the Province, but are good of their kind. The ragi of this part of the country stands high, and I believe deservedly so in popular estimation.

9. The means of communication are described by Lieut.-Colonel Cowie at para 15. There is no doubt that the Taluk is badly off for roads, not only as regards the total length of road communication but in respect of the condition of the roads. The open country to the south has fair cart tracks in addition to the made roads, but the northern or stony region is undoubtedly very badly off for means of communication generally, both as regards made roads and cart tracks.

10. Markets as described by Lieut.-Colonel Cowie at para 12 are fairly numerous and conveniently situated, but the business done is not large. There are also annual fairs held at Alamgiri in the Chintamani Magani and at Kumkutapalli in the Munganhalli Magani. In the adjoining taluks there are several large fairs. These fairs substantially supplement the markets.

11. Viewed as a whole and compared with adjoining taluks which is what we are now chiefly concerned with, Chintamani may be fairly considered to hold its own. It has a numerous, healthy and peculiarly industrious body of ryots, to whose exertions, aided by great natural fertility, good water supply and ample grazing, is due, the forward position the Taluk now occupies, in spite of very deficient means of communication and, as I shall show further on, a very oppressive and unequal system of assessment.

12. During classification, the following statistics were collected :—

Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.
729	13,150	60,677	473	139,479	9,551	2,902	14

The total area, it will be observed, is very great but is chiefly unculturable, no less than 310 square miles out of a total of 473 square miles being so recorded. The occupied area is almost identical with that of the Mulbagal Taluk and only a little more than that of Hoskote, both these Taluks having a far smaller gross area than Chintamani. It is not therefore surprising that the population for the whole Taluk should be only 128 to the square mile. But if the estimate be made on the occupied area only we get the very large ratio of 562 to the square mile, greater than either that of Mulbagal or Hoskote, and only a little less than that of Sidlaghatta. The number of carts too is encouraging and indicative of a desire on the part of the ryots to better themselves. The Taluk boundary has of late years undergone so many changes that it is difficult to institute any useful comparison between the census figures of 1871, the Famine Commissioner's test census of 1878 and again of the census figures of 1881. The population by the Survey census excluding 54 Inam villages, is 60,677, and I am inclined to think that the Taluk has greatly recovered itself since the famine. The loss of population from 73,433 in 1871 to 47,746 in 1878 for the Srinivaspur Taluk must have been overestimated by the Famine Commissioner, or at any rate a large number of those supposed to have died were simply fugitives and have returned to the Taluk. I do not understand how such a nice distinction could have been made between this Taluk and Mulbagal, the latter being colored in the famine map as much less affected by the famine. There can be no doubt that the test census applied only to one magani must occasionally give very misleading results.

13. The lands of this Taluk have been divided up as shown in the following statement:—

Description of Land.	Government.		Inam.	Total.		Grand Total.
	Occupied Acres.	Waste Acres.	Total Acres.	Occupied Acres.	Waste Acres.	
Dry Crop	41,883	26,268	12,058	53,941	26,268	80,209
Rice	6,439	4,994	3,576	10,015	4,994	15,009
Garden	4,537	594	697	5,234	594	5,828
Total.....	52,859	31,856	16,331	69,190	31,856	101,046
Unculturable area including village sites, &c. ...			...	...	...	202,201
Area of Inam villages ...		...	...	...	...	17,075
Total area of the whole Taluk, *i. e.*, 500 square miles			...	...	...	320,322

14. As usual in this District a very large extent of culturable land, both wet and dry, is unoccupied. The reasons for such a state of things here are the same as in all the Taluks of this District hitherto settled, and which have been fully gone into in previous settlement reports and may be summed up in unequal rates on occupied land and too inelastic rates on waste arable land, the taking up of which was consequently retarded, if not practically forbidden.

15. The following statement is intended to show the incidence of the old assessment in each magani, the average rates being obtained by applying the newly ascertained survey area under each head to the old collections. Wet and garden I have considered it advisable to treat as one head, the distinction in the old accounts between the two being very erroneous.

Number.	Magani.	Dry Crop.			Wet.		
		Survey Area.	Past Collections.	Average Rate.	Survey Area.	Past Collections.	Average Rate.
1	2	3	4	5	6	7	8
1	Chintamani	7,419	12,063	1 10 0	1,385	6,170	4 7 3
2	Ambajidurga	4,797	6,637	1 6 2	1,059	5,150	4 13 10
3	Iragampalli	3,337	3,970	1 3 0	1,229	5,969	4 13 9
4	Munganhalli	2,050	2,575	1 4 1	1,042	6,424	6 2 8
5	Adagal	3,043	5,041	1 10 6	1,178	6,018	5 1 9
6	Muragamalla	4,445	6,254	1 6 6	1,077	5,624	5 3 7
7	Srinivaspur	6,533	11,989	1 13 4	992	4,989	5 0 6
8	Somayajanapalli	5,289	10,246	1 15 0	1,118	5,215	4 10 8
9	Nelavanki...	3,011	4,658	1 8 9	1,064	5,342	5 0 5
10	Rayalpad	1,961	3,742	1 14 6	832	5,759	6 14 9
	Total.....	41,883	67,175	1 9 8	10,976	56,660	5 2 7

16. Now when we consider that the old assessment was based upon no survey of the land much less upon any attempt to assign a relative value to each field, indeed that in a great many instances the assessment was the result on conversion from batayi to nagadi of what is known as the "Sarasari system," it is simply astonishing that so high an assessment as must have been paid on some of the individual holdings, but the amount of which we cannot ascertain till the settlement

papers are ready, could have been continued. At para 9 Lieut.-Colonel Cowie quotes the rates supposed to have been in force and, in the same para, gives the average rates *actually* paid, calculated out of a number of instances recorded at time of test. These figures, without pretending to have any great significance, simply show that the old assessment must have been very high indeed in a great many instances. Of course we may feel perfectly sure that the average rate of assessment for each magani as shown in the statement at the head of this para, was greatly exceeded in many cases, and as equally sure that in many instances the very opposite extreme will be found. The lump sum taken out of the Taluk based on unequal rates, that is badly distributed, must have pressed very heavily indeed.

17. I now come to the realizations of revenue during the last 25 years. These, with the ruling prices, as far as obtainable, of ragi and rice, are shown below :—

Year.	Bijavari Khandis.	Total Demand.	Remissions.	Balance collected.	Seers per Rupee.	
					Ragi.	Paddy.
1	2	3	4	5	6	7
1861—62...	6,018	1,63,676	...	1,63,672	...	No data available.
1862—63...	6,776	1,79,108	...	1,79,108	...

1885—86...	6,017	1,24,060	...	1,24,060	30	27
5 years' average	...	...	...	1,23,891		
10 years' average	...	...	...	1,29,899		
15 years' average	...	...	...	1,37,178		
20 years' average	...	...	...	1,46,091		
25 years' average	...	...	...	1,52,699		

18. The price lists prior to 1869—70 for this Taluk are deficient, but we have a close enough guide in the figures already collected for adjoining settled Taluks, and there is nothing whatever in the difference of prices, now and formerly, to account for the extraordinary falling off of the revenue. The revenue history of one Taluk, so far as we have gone in this District, is that of all, and the same causes have been at work to throw out of cultivation a great deal of

valuable land which I believe would, under a fair distribution of the burden of assessment, have been now in occupancy. These causes have been very frequently described in previous reports and I need add nothing to what I have stated at para 16 and to what the figures in the report in themselves prove.

19. While the batayi system existed the figures of no single year can be trusted to belong strictly to that particular year, and I would therefore trust rather to a correct impression of the extraordinary fluctuations of the revenue in this Taluk being conveyed by a general and comprehensive view of the figures shown in the above statement, than by referring too strictly to the figures for each individual year. A glance at the statement shows very clearly the periods of high collections, and if we look at the average of a number of years, of the whole 25 years for instance, it is startling to find that this average, notwithstanding that the period includes the famine years, exceeds the collections of last year, by which time the Taluk had of course greatly recovered from the effects of the famine, by no less than Rs. 28,639. The average collections of 10, 15 and 20 years at the foot of the statement show very similar results although in a less degree. The highest collections of any year, 1865—66, exceed the lowest collections of any year, 1881—82, by about Rs. 75,000, but for the reasons above given, it is better to trust to average results

20. Owing to the manner in which the accounts were kept, and the annual jamabandi carried out formerly in this Province, no reliable return of remissions is forthcoming, although no doubt what were practically remissions were common enough. We can only look at actual collections nor would it serve any useful purpose to do more than this. These have gone down in a manner calculated to leave no reasonable doubt whatever that there has been something very faulty indeed about the old system of assessment and that relief in some shape is absolutely necessary. This relief can, I think, be afforded only by fixing the Government demand on the occupied lands on a very liberal basis and trusting, as we may safely do, to the careful distribution which this classification has ensured of this amount, as well as of the assessment of the arable waste, leading to a vast improvement in the circumstances of the ryots and, latter on, of the revenue also.

21. I find that by applying the maximum rates shown below, I can obtain with fair accuracy the results sketched out in the preceding para :—

Group.	Villages.	Maximum Dry Crop Rate.	Maximum Rice Rate.	Maximum Garden Rate.		Remarks.
				Tank.	Well.	
1	2	3	4	5	6	7
I	594	2 12 0	8 0 0	12 0 0	8 0 0	
II	135	2 8 0	8 0 0			

22. I have divided the Taluk into only 2 groups and only as regards the maximum dry crop is there any distinction made between these. The 1st group represents the bulk of the Taluk and the 2nd group the more inaccessible tracts to the north and north-east.

23. The rates proposed give the following results on the occupied land :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	594	36,468	57,997	1 9 5	5,445	34,063	6 4 1	3,064	18,181	5 14 11	44,977	1,10,241	2 7 4
II	135	5,415	7,302	1 5 7	994	6,164	6 3 3	1,473	8,865	6 0 3	7,882	22,331	2 13 4
2	729	41,883	65,299	1 8 11	6,439	40,227	6 4 0	4,537	27,046	5 15 5	52,859	1,32,572	2 8 2

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

It will be observed from the statement at para 15 that in more than one magani the old average rate for dry land is higher than my average for the whole Taluk. The new average survey rate on garden land is lower than the same rate on wet land; the explanation is that in the former there is a large proportion of very poor garden land watered by hand and very lightly assessed. The wet lands on the contrary are comparatively uniform, being assessed neither so high nor so low as the garden lands.

24. There is the following area of assessed waste available for cultivation :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	594	21,758	30,628	1 6 6	4,429	24,324	5 7 10	500	2,226	4 7 3	26,687	57,178	2 2 3
II	135	4,510	5,309	1 2 10	565	2,926	5 2 10	94	379	4 0 6	5,169	8,614	1 10 8
2	729	26,268	35,937	1 5 11	4,994	27,250	5 7 4	594	2,605	4 6 2	31,856	65,792	2 1 1

The above figures call for little remark. The waste lands are of considerably lower value than the lands in occupancy, but are nevertheless of very fair quality. The average rate for wet lands, when compared with the old rate of 1 rupee per kolaga or about Rs. 10 per acre, will give some idea of the remarkable facility which will now be afforded for taking up waste lands at moderate rates.

25. The next statement shows the area and assessment of the minor inam lands :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2.	3	4	5	6	7	8	9	10	11	12	13	14
I	594	10,189	14,069	1 7 6	2,849	17,383	6 1 7	459	2,757	6 0 1	13,497	35,106	2 9 9
II	135	1,869	2,409	1 4 7	727	4,452	6 1 10	238	1,528	6 6 8	2,834	8,389	2 15 4
2	729	12,058	17,378	1 7 1	3,576	21,832	6 1 8	697	4,285	6 2 4	16,331	43,495	2 10 7

26. The result of the proposed settlement is next shown as regards the whole of the lands of the villages under report occupied, waste and Inam, placed in juxta position with the old collections in each group :—

Group.	Villages.	By old Accounts.		By Survey.							
		Bijvari.	Collections.	Government Occupied.		Government Waste.		Inam.		Grand Total.	
				Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12
I	594	4,989	1,03,007	44,977	1,10,241	26,687	57,178	13,497	35,106	85,161	2,02,525
II	135	979	21,053	7,882	22,331	5,169	8,614	2,834	8,389	15,885	39,334
2	729	5,968	1,24,060	52,859	1,32,572	31,856	65,792	16,331	43,495	101,046	2,41,859

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

It will be seen that the burden of the increase involved in the proposed settlement falls upon the 1st group, no consideration having been given under the old system to the outlying position of the villages of the 2nd group.

27. The grazing realizations have been extraordinarily high amounting last year to no less than Rs. 11,992. This is a very unusual figure, large as the Taluk is, and I cannot estimate it higher under the proposed settlement, during the introduction of which a good deal of waste land will have to be assigned free and indented upon in various ways. I will keep my estimate therefore for the purposes of comparison at the same figure as the old collections.

28. The Local Fund in 1885—86 returned Rs. 9,983; under the proposed settlement, it will be Rs. 11,003, *viz.* Rs. 8,285 on the occupied Government lands and Rs. 2,718 on the minor Inam lands. I do not quite trust the return of Local Fund realizations for 1885—86, but being a fixed cess this is not of much consequence.

29. The general effect of the proposed settlement is summed up as follows :—

	Rs.
Land Revenue of 1885—86	1,24,060
Local Fund	9,983
Grazing	11,992
Total....	1,46,035
Survey Assessment of occupied lands	1,32,572
Local Fund	11,003
Grazing	11,992
Total.....	**1,55,567**

30. Thus, setting aside any calculation of Local Funds or grazing, the assessment of the occupied lands is raised by Rs. 8,512, an amount which will barely provide the pay of village officers, which may be estimated at Rs. 8,000, and if the contribution to Irrigation Fund, Rs. 5,494, be deducted, the results represent an immediate loss to Government.

31. The effect of the settlement is shown below in a different form calculated to give some idea of the general weight of the new assessment :—

Description of Cultivation.	Acres by Survey.	Average per acre under old system.	Average per acre under new system.	Remarks.
1	2	3	4	5
Dry	41,883	1 9 8	1 8 11	
Wet	10,976	5 2 7	6 2 1	Includes wet and garden.

The dry crop assessment has been reduced, a very unusual result of our settlements, the opportunities offering under the old system of encroaching upon dry land being very much greater, relatively, than in the case of wet lands, but the fact is that in the particular Taluk under report there have been instances of the most extraordinarily high dry assessment under the old system amounting, on the survey area, to rates like Rs. 4 and even 5 per acre. Assessment like this it is of course impossible to continue and in assessing dry land, as well as wet and garden, I have followed the lines sketched out at para 20 of this report and have adopted maximum rates, the moderation of which is beyond question, but I have at the same time been careful to give no grounds for any charge of inconsistency with reference to rates adopted in neighbouring Taluks already settled. The maximum rates which I have adopted are, as regards the dry crop lands, precisely the same as those applied to Sidlaghatta, Hoskote and Mulbagal. The rice maxi-

mum rate is Rs. 8 against Rs. 9 in Hoskote and Sidlaghatta, and the same precisely as the maximum rice rate for the Mulbagal Taluk. It is obvious therefore that I have gone quite as high as was either safe or advisable, considering the extraordinary extent of arable land lying waste and the general position and circumstances of the Taluk. The gardens in this and all the Taluks adjoining have been assessed on the same scale and on the same principles.

32. There is no doubt that the proposed settlement is very favorable to the ryots who by the collateral action of the settlement are also relieved of grain payments to Patels and Shanbhogs the value of which I dare say amounts to quite Rs. 10,000, if not a good deal more. I have therefore endeavoured to explain as clearly as possible the reasons which have led me to propose a settlement involving some immediate loss of revenue to Government but a loss which I believe will be amply made good hereafter; while there is the satisfaction of extending to the hardworking ryots of this Taluk a relief from what I regard as a very unjust assessment, induced very probably by these very habits of industry to which I have alluded, and which enabled the ryots to pay assessment which would not easily be paid by the ryots of other parts of the Province.

33. I submit a sketch map of the Taluk and the usual appendices comprising classwar statement and list of inam villages with the kind of survey applied to each.

34. I shall be prepared to give out these rates as soon as the settlement of the Mulbagal Taluk has been completed, probably about the 25th of May, and shall feel obliged by sanction being given so as to admit of my doing so.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

REPORT ON THE CHINTAMANI TALUK OF THE KOLAR DISTRICT PREPARED BY THE OFFICERS IN CHARGE OF CLASSING OPERATIONS DURING THE SEASON 1885—86.

Boundaries.—The Taluk, which is situate in the north-east corner of the Kolar District, is bounded on the north by the Cuddapah Collectorate of the Madras Presidency, on the east by the same Collectorate and the Punganur Zamindari, on the south by the Mulbagal and Kolar Taluks, and on the west by the Sidlaghatta Taluk.

2. *Extent and Area.*—From north to south the Taluk covers 25 miles, while from east to west it measures 30, these measurements being roughly taken on the meridian and parallel of latitude running through the Muragamalla Hill which is a fairly central point. The shape of the Taluk is fairly a compact one; the Mungonhalli Magani being the only one somewhat detached. The area is about 510 square miles.

3. *General Features.*—The Taluk, much like that of the neighbouring Taluk of Sidlaghatta, is distinctly divided into a "Kal Shime" and a "Kempu Bail Shime," which division is roughly shown by the line of high road from Bagepalli to Chintamani, and from thence by the road on to Cuddapah, the portion lying to the north of this being the stony region, the southern the "Kempu Bail" or open red soil country. The northen portion was classed by Colonel Mackenzie who describes the country as intersected by low ridges of bare gneiss, with narrow valleys between. Two conspicuous hills one in the Muragamalla Magani and the other in the Munganhalli Magani, rise to a height of about 800 or 900 feet above the plain, and the ground for a considerable distance round the bases of these hills consists of barren rugged rock and is quite impracticable. The valleys, however, are well wooded with hongo and, here and there, groves of mango and tamarind. The whole of this northern portion is very inaccessible, *viz.* Munganhalli, Iragampalli, Muragamalla, Adgal and Rayalpad Maganis. Part of the Nelavanki Magani, which lies to the south of the high road to Cuddapah, is of a similar nature to those described above, but the remainder of the Taluk is an open rolling country with broad valleys and gently undulating hills covered with stunted bush and stretches of "Kachi" grass. Fine topes of mango, tamarind and other trees are common. In the west of the Taluk there is a fine hill near Chintamani, Ambajidurga, on which there is an old fort, as there is also on the Muragamalla Hill; these are isolated Hills, but to the east of the Taluk there is a regular chain of hills forming the boundary with the Punganur Zamindari and the Cuddapah Collectorate. These hills are densely covered with a stunted thorny bush, with a deal of cactus and large boulders of rock tumbled in all directions down their sides. The height of these hills, in the vicinity of Rayalpad, must be fully 1,000 feet above the plain.

4. *Drainage.*—The drainage of the Taluk may be said to be roughly divided by the said high road to Cuddapah into a northern and southern system, the only part at which there is a decided flow of water from south of the road to the north being in the Nelavanki Magani, where the drainage from the eastern hills flows northward through the Adgal Magani and so on to a large tank in the Madanapalli Taluk of the Cuddapah Collectorate. This and another flow rising in Ambajidurga Magani and running north through Iragampalli and Munganhalli Maganis are the only large nullahs in the Taluk and are of small importance. The southern system for the most part goes down to the Srinivaspur tank skirting the north of Kolar Taluk and the west of Mulbagal and eventually is received into the Belmangal and Ramasagar tanks.

5. *Population by the Census.*—By the Census of 1881, the population of the Taluk was 74,437, but villages since that have been taken from and added to the Taluk and these figures are not to be relied upon.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

The subjoined statement gives the division of the Taluk into Maganis and the number of villages of different kinds in each :—

Magani.	Government Villages.	Jodi Inam.	Kayamgutta.	Sarva Inam.	Mahal Jodi.	Total.
Chintamani	79	2	2	2	1	86
Ambajidurga	64	4	3	...	...	71
Muragamalla	97	6	1	...	1	105
Iragampalli	75	2	1	...	...	78
Munganhalli	35	1	1	...	1	38
Adgal	89	1	...	1	...	91
Rayalpad	72	...	...	...	2	74
Nelavanki	71	6	2	...	...	79
Somayajanpalli	77	7	1	...	...	85
Srinivaspur	70	4	2	...	...	76
Total	729	33	13	3	6	783

6. Irrigation.—*Channels.*—There are no regular channels, but several dams of rude construction have been built across the two nullahs spoken of above under head of drainage, and small channels have been led off from them for the irrigation of narrow strips of rice, &c., along the banks. The water in these may run in a good season until the end of January, but the channels do not appear to be much utilized, water being raised by "mot" from the beds of these streams.

Wells.—Kapili wells are common in the Munganhalli and Iragampalli Maganis. In Munganhalli the beds of many of the tanks are dotted over with wells which are sunk to a considerable depth through decomposed gneiss rock, and the sides of the well sometimes solidly built up with blocks of stone. Water is generally abundant but often at such a depth as to require three or four pairs of bullocks to work the well. In the southern part of the Taluk, kapili wells may be counted on the fingers of one hand, but yatam wells are met with everywhere and often to be seen on the slope of the dry crop soil alongside the irrigated land beneath a tank, as also in the bed of the tank itself, and these are put into use when the tank supply is exhausted.

Tanks.—The Taluk is well supplied with tanks, but for the most part they are shallow and silted up, and except in a few instances where the Irrigation Department, during the work of the Ramsagar series of tanks, repaired them; the bunds are out of order and overgrown with trees and bushes. The smaller tanks (as far as water-spread is concerned) of the northern part of the Taluk are generally deeper than those of the open country of broad valleys, and a Vaisakha crop is much more common in the north than the south of the Taluk, both the tanks and the wells being better in that part. The finest tanks in the Taluk are the Yerkalve, Burkailkote and Gunderdu tanks in the Nelavanki Magani, and the Kurubar Amanikere in the Chintamani Magani. There are many other fine water-spreads, such as the Srinivaspur, Ronur, Timsandra tanks, but they are very shallow, and during the season under report the Srinivaspur tank was perfectly dry on the 27th February notwithstanding late rains in December. This tank seems to have been thought an important one by the Public Works Department, for they have destroyed the tank below (the Hebata tank) and considered that the supply from Srinivaspur tank would be sufficient for both "Atchkats." For 10 years the Srinivaspur tank has not properly filled and this season there was no rice crop at all to speak of. Chenna was being grown instead of rice under the tank.

7. *Soils.*—Dry crop soil of the whole of the "Kempu Bail Shime" is a good red, here and there inclined to be sandy, of a fair depth and free from gravel; that of the "Kal Shime" is poor, shallow and contains much gravel and sand. Rice lands appear to be much the same quality in all parts of the Taluk being very uniform, and generally of a good brown loam. Towards the tail and sides of the "Atchkats" of the shallow tanks in the southern portion, the quality of the soil is not

generally so good, while in the narrow valleys there seems not be so much difference between the upper and lower parts of the "Atchkat."

8. Crops.—Dry crops are ragi, avare, togari, hutchyellu, harka, samé, baragu, &c., grown in the usual manner.

Wet Crops.—The rice is generally of two kinds, one the "Dod Bhaire Nellu" and other "San Bhatta."

Garden Crops.—Generally betel-leaf and a small quantity of mulberry, but these to a very small extent, and the gardens of the Taluk are generally poor. Cocoanuts are seen here and there, but are unproductive as a rule. Supari is very rare.

In most villages, there are patches of chilly, tobacco and minor vegetables. Sugar-cane is grown extensively in Somayajanapalli, Nelavanki and Rayalpad and is usually helped on by means of yatam wells in addition to the tank supply of water, and in this way such numbers have been entered into the garden statements In many places the cane grows very high. Colonel Mackenzie mentions 10 feet of crushable cane being met within Rayalpad and in parts of Nelavanki beneath the Yerkalvé and Gunderdu tanks, it is fully of that height. The kind of cane is usually "Kemp" or "Bile Rastali."

9. *Rates.*—The rates for different crops as given by the Amildar are as under :—

	From		To	
Dry Crop ..	4 annas ..	..	3 12 0	per kolaga
Rice ..	4 annas ..	..	1 7 4	do
Garden ..	8 annas ..	..	1 8 0	do

As found at test upon actual areas, the rates are given in the statement below Each magani is shown separate :—

Magani.	Dry Crop.		Rice.		Garden.		
	Rs.	A.	Rs.	A.	Rs.	A.	
Chintamani	1	13	5	0	3	13	Per acre
Ambajidurga	2	1	9	7	6	2	
Murugamalla	2	3	6	10	10	4	
Iragampalli	1	14	7	11	5	5	
Munganhalli	1	8	7	7	5	5	
Adgal	1	10	7	7	6	4	
Rayalpad	1	13	6	9	9	8	
Nelavanki	1	14	6	1	...	...	
Somayajanapalli	2	8	6	6	...	...	
Srinivaspur	1	14	6	11	...	...	

10. *Wages.*—Men permanently employed receive 2 to 3 khandagas of grain and 10 to 12 rupees per annum. Employed monthly they get about 40 seers of grain and 10 to 12 annas. For the working of a "Kapili" well in the northern part of the Taluk a man receives yearly about Rs. 6, a blanket and 4 khandis of grain. During harvest time casual laborers are paid, men 2 annas, women 1 anna 4 pies, children 1 anna.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

11. *Sub-letting.*—Lands are sub-let on the usual "Varam" agreement. If a sugar-cane field, ¼ only to owner, sometimes half the kandayam and also ¼ of produce to the owner.

12. *Markets, &c.*—Weekly markets are held as under :—

Sunday	..	at Chintamani
Monday	..	at Rayalpad, Nambihalli (Srinivaspur Magani).
Tuesday	...	at Hudli (Somayajanapalli Magani).
Wednesday	..	at Govanpalli (Adgal Magani) „ Muragamalla.
Thursday	..	„ Ronur (Somayajanapalli Magani). „ Adgal
Friday	..	„ Ainur (Chintamani Magani). „ Batlapalli (Munganahalli Magani).
Saturday	..	„ Srinivaspur. „ Iragampalli. „ Yegokunte (Iragampalli Magani).

The people in Rayalpad and Adgal Maganis also resort to a market at Madanpalli in the Cuddapah Collectorate, those of Munganhalli to another large market in the same Collectorate called Cheddam, and a market in the Pungnur Zamindari is frequented by the people of Nelavanki and Somayajanapalli. At all these markets there is little more than grain, chillies, tobacco, &c., to be got, cattle and sheep occasionally. There are annual fairs at Alamgiri in the Chintamani Magani, at Kunkutapalli in the Munganhalli Magani, at both of which places about 1,000 people collect ; cattle, sheep, copper and brass vessels, cloths, &c., are brought for sale to these fairs. In the neighbouring taluks there is an annual fair at Nandi in Chikballapur, at Varnasi in Kolar, at Avani in Mulbagal, at Melur in Sidlaghatta, at Kanve Subramanya, in Dodballapur, and also at Pungnur ; to all of which the people of the Taluk resort with cattle for sale, *&c.*

13. *Exports and Imports.*—There is no extensive export or import trade. Ragi, rice, jaggory are sent to Kolar and Bangalore, and rice, wheat, dry cocoanuts, cloth, &c., are imported from the same places and from Her Majesty's Territory.

14. *Manufacture.*—Blankets and coarse cloth are manufactured at Korampalli in the Ambajidurga Magani, at Gudumarampalli in the Iragampalli Magani, at Tungatpalli in the Munganhalli Magani, at Bairaganpalli in Adgal Magani, at Chintamani and Kodadvadi in the Chintamani Magani. A finer cloth is woven at Hoskote in the Srinivaspur Magani, at Mailandhalli in Chintamani, at Kotgallu in Ambajidurga for kamarbands, &c., and in the Somayajanapalli Magani at the villages of Dimbala and Ronur gunny for sacking is woven. With this exception there are no manufactures. The people may be said to be entirely agricultural.

15. *Roads.*—The Taluk is very badly off in this respect, the high roads leading from Talagvara to Rayalpad, from Srinivaspur to the junction with the above road, from Srinivaspur to Chintamani, Chintamani to Bagepalli, are, or were, during the season under report, in a very bad state of repair and during and after the rain in month of December it was nigh impossible in many places for a cart to move. There are fair country cart tracks over the open country in the south of the Taluk, but the northern part of the Taluk has few even of these roads, and, what there are, are very circuitous and stony ; this of course is due to the nature of the country, but the Munganhalli, Iragampalli, Adgal, Rayalpad and part Muragammalla Maganis are in consequence much cut off from the rest of the Taluk.

16. *Cattle.*—Cattle are numerous in all parts of the Taluk and owing to the extensive grazing available, for there is much waste land everywhere, they are

generally in good condition, a better sized animal being seen in the south than in the north ; but good sized plough cattle are to be found in every village. Sheep and goats are very numerous, and a fair number of donkeys which are used for transporting grain to and from the different markets.

17. *Grazing.*—Grazing lands are everywhere extensive, but the grass is of a coarse kind, " kachihullu " and spear grass being mixed with the better sorts of root grass, which last is a good deal grubbed up with the mamati in the vicinity of villages as fodder for cattle at night, &c.

18. *Firewood.*—There is plenty of scrub jungle in all parts of the Taluk and in no part of it has the supply to be brought from any distance.

19. *Trees and Forests.*—There are no State forests or reserved kavals. The honge is the most common tree and is found fringing many of the tank beds, besides plantations of these trees are held on patta in many parts of the Taluk the leaf and flower being valuable as a manure and the bean for extraction of the oil. Topes of mango and tamarind and hippe trees are common. On the hills, to the east and on the slopes of the Ambajidurga and Muragamalla Hills, there is a stunted thorny bush in many places growing very thick, bamboo in places in Rayalpad and Nelvanki, but nowhere extensive.

20. *Manure.*—Animal manure is chiefly used for the dry crop soil, the rice and sugar-cane fields being manured with leaf and flowers of the honge, and the supply of both is good, cattle and sheep being numerous and the honge growing, everywhere. Silt from tank beds is often made use of, for adjoining fields, both for dry and wet soils.

21. *Weights and Measures.*—Grain is sold by the seer of capacity, 160 seers= 1 khandi. There is no proper description of this seer, but it is generally spoken of as a seer of 80 tolas—of course being a measure of capacity it should not be so spoken of, as a seer of one grain may weigh exactly 80 tolas while the same seer of another grain will weigh more or less than 80 tolas according to its specific gravity, probably this seer varies in different parts of the Taluk, as it does in the Cantonment and the Pettah of Bangalore. Jaggory, chillies, tobacco, &c., are sold by a seer of weight.

1 Seer=24 tolas.

40 Seers=1 maund.

22. *Average Price of Staple Foods.*—During the past year the average price of the different food grains has been as under :—

Ragi	..	31 seers per rupee.
Rice	..	11.5 "
Dal	..	12 "
Avare	..	15 "
Gram	..	24 "
Cholam	..	25 "
Same	..	54 "
Harka	..	54 "
Sajje	..	45 "
Navane	..	60 "
Bengal-gram	..	11.5 "
Wheat	..	12 "

23. *Remuneration of Village Servants.*—Shanbhogs get for each plough on the dry soil 1 ½, 2 or 3 kolagas of grain, one kolaga per khandi on the produce of rice land and one kolaga per kolaga of bijavari from lands under wells. Of the sugar-cane crop they get 1, 2, 3, 4 per cent of the out-turn of jaggory, also 4 annas 3 pies for each mill established. Talavar and Toti get from each ryot ½, ¼, ¾, 1 kolaga of both dry and wet crop produce. Nirganti for each khandaga of land (wet) receives ¼ kolaga of grain.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

24. *Rain-fall.*—The rain-fall as observed at Taluk head-quarters is given below for the last five years :—

Year ending 31st March—		Inches:	Cents.
1881—82	..	30	9
1882—83	..	28	0
1883—84	.	26	66
1884—85	..	16	93
1885—86	..	26	4

25. *Condition and Health of the People.*—The general health of the people for the past 5 years has been good and there have been no epidemics. There are as a rule a most industrious and sober people, not affluent, but everywhere, in their different classes, fairly well-to-do. In Adgal there seemed to be distress from failure of dry crop for two or three seasons, as also in parts of Nelvanki and in both these Maganis there were said to be large and long outstandings of revenue unpaid at the commencement of the season, as indeed there were all over the Taluk but in these two Maganis especially. There are very few sites of villages that were deserted during the famine of 1876—77. Houses are generally of a poor description, a few villages showing tiled roofs; in the kasabas of Chintamani and Srinivaspur only are good houses to be seen. English made crushing mills for sugar-cane have found their way into the Taluk and are much appreciated by their owners, being recognized as a great saving of labor, and doing the work more thoroughly than their own native mills. There are public chattrams for the use of travellers in Chintamani, Alamgiri, Ulvadi, Kunkuntle, Ronur, Kogalu, Yegokunte, Muragamalla, Iragampalli, all of which have been built by private enterprise.

The Taluk is decidedly salubrious and the water supply generally good.

From the Deputy Commissioner, Kolar District, to the Superintendent, Mysore Revenue Survey, No. 139—109, dated 6th May 1887.

With reference to your letter No. 110 of the 11th instant, I have the honor to state that I have read with great interest your report to Government on the proposed revision of the assessment of the Chintamani Taluk. Considering the judicious arrangements of its villages into two groups, and the fair way they are dealt with, I have no hesitation in saying that the * rates of assessment therein proposed are very moderate and encouraging to intending applicants for lands. This settlement, while removing the inequalities in the old system of assessment, does not show any large variations in the average rates as compared with what the ryots have hitherto been accustomed to pay. It is true that the results of the proposed settlement represent an immediate loss to Government about Rs. 6,000 and odd, but this will, I hope, be soon made good. There is an assessed waste land amounting to acres 31,856 valued at Rs. 65,792 available, and a great portion of the same will certainly be taken up for cultivation during and after the settlement, for which ample facilities having been afforded.

	*Average assessment under old system per acre.			Average assessment proposed to be adopted per acre.		
	Rs.	A.	P.	Rs.	A.	P.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th July 1887.

No. 4567-76—112, DATED 11TH JULY 1887.

ORDER THEREON.—In the papers above read, the Survey Superintendent submits proposals for the revision of assessment in the Chintamani Taluk, Kolar District.

2. The taluk is a large one containing 729 Government and 54 inam and kayamgutta villages. The rain-fall is pretty uniform, and there is a good supply of water throughout the taluk. Valuable sugar-cane is extensively cultivated on wet lands, while the ragi raised on dry lands is of a superior description. There is a very large proportion of unculturable area in the taluk amounting to 316 out of a total of 473 square miles. The culturable area represents but a third of the entire area, and of this again, only about two-thirds is under occupation. This is doubtless due in a great measure to the almost prohibitive rates at which waste arable lands used to be given out under the old system.

3. The statement of past collections given at para 17 of the Superintendent's report shows great fluctuations in the revenue of this taluk. The highest collections amounted to Rs. 1,95,721 in the year 1865—66; they gradually declined (with the single exception of the year 1875—76 in which they showed an increase) till the year 1881—82 when they amounted to Rs. 1,20,192. Since 1882—83, however, the revenue shows a gradual rise, the collections of 1885—86 amounting to Rs. 1,24,060. The fall in the revenue above noticed is chiefly attributable to the substitution of the nagadiyat for the batayi system which was formerly in force.

4. It is proposed to divide the taluk for purposes of assessment into two groups and to fix the following maximum rates:—

		1st Group.	2nd Group.
Dry Crop	..	2 12 0	.. 2 8 0
Rice	..	8 0 0	.. 8 0 0
Garden { Tank	..	12 0 0	.. 12 0 0
Garden { Well	..	8 0 0	.. 8 0 0

These rates are the same as those adopted for Mulbagal, and differ from those of Hoskote and Sidlaghatta only as regards the rice rate, which is fixed at Rs. 8 instead of Rs. 7 in the two latter taluks. This small difference is justified by the superior description of sugar-cane cultivation that is carried on in Chintamani.

5. The distribution of the above rates on the occupied area, as contrasted with the past collections, is exhibited in the following statement:—

	Area. Acres.	Under Old System.		As per Survey.	
		Collections.	Average Rate.	Assessment.	Average Rate.
		Rs.	Rs.	Rs.	Rs.
Dry Crop	41,883	67,175	1 9 8	65,299	1 8 11
Rice	6,439	56,660	5 2 7	40,227	6 4 0
Garden	4,537			27,046	5 15 5
Total.....	52,859	1,23,835	...	1,32,572	...

The proposed rates give an average assessment per acre of wet and garden lands of Rs. 6—2—0 against an old rate of Rs. 5—2—7, while on dry lands it is Rs. 1—8—11 against Rs. 1—9—8 under the old system. The increase of assessment expected from rice and garden lands is Rs. 10,613, whereas the proposed settlement in regard to dry lands would result in an actual loss of Rs. 1,876. This result is chiefly due to an equalization of the old rates. The reduction in the case of dry lands is just and proper and justifiable on its own merits. The increase in the case of wet and garden lands is moderate and in strict harmony with the rates adopted for

neighbouring taluks, and as regards garden rates the observations made in the orders sanctioning the settlement of the Mulbagal Taluk apply generally to this taluk also

6. As already observed the area of culturable waste land, as noted in the margin, bears an unduly large proportion to the cultivated area. The proportion of waste under rice is considerable being nearly one half of the entire wet area. A great portion of this area must have been thrown out of cultivation on the abolition of the batayi system which was in vogue in the Kolar District on an extensive scale. The rates fixed upon arable waste by the Survey Department do not however afford any special temptation to ryots taking them up eagerly in the near future. Where necessary, the Deputy Commissioner will grant shraya rates in the case of wet land long out of cultivation and requiring expenditure of capital to again bring under cultivation. But upon the restoration and maintenance, with the co-operation of the ryots, of the large number of scattered tanks in this taluk, will chiefly depend any improvement of the wet revenue. The attention of the Deputy Commissioner will be drawn to the present indifferent condition of many of these tanks.

	Acres.
Dry Crop ...	26,268
Rice ...	4,994
Garden ...	594
Total.....	31,856

7. There is a considerable amount of well irrigation in the taluk. This description of irrigation in a dry taluk like Chintamani is of very great importance, and every possible encouragement should be afforded for its extension and development by grant of advances where required for the construction of new wells. The present hard and fast rule under which the ryot applying for advances is called upon to furnish security beyond his means, and which he has to obtain in a way that deprives him of the full benefit of the loan, requires to be considerably modified. His Highness the Maharaja's Government are of opinion that if the Local Revenue officers will see that the loan is utilized for the construction of the well, Government need require no security beyond that of the land itself. The Deputy Commissioner should take an early opportunity to carefully study this important question and submit a report, giving full particulars regarding the probable extent of increased well-irrigation which can be ensured by the allotment of the requisite funds for loans under the Land Improvement Act. Any detailed reports which the Amildars may draw up, preliminary to the Deputy Commissioner's investigation, should also accompany the report above called for.

8. The total result of the proposed settlement upon occupied lands is a revenue of Rs. 1,32,572, or Rs. 8,512 more than the collections of 1885—86. Out of this sum about Rs. 8,000 have to be allotted for the remuneration of village officers and Rs. 5,494 to the Irrigation Cess Fund. These allotments leave a balance of Rs. 1,19,078 only, being a loss of Rs. 4,982 as compared with present collections. This loss is more than counterbalanced by the amount of relief afforded to the ryots.

9. The attention of the Secretary, Public Works Department, and the Deputy Commissioner will be drawn to the remarks made in para 6 of Colonel Cowie's report in regard to the silted condition of some of the tanks and the disrepair of the Survey bánds in this taluk.

10. The remarks in para 15 of Colonel Cowie's report regarding the condition of the existing roads in the taluk and the paucity of roads in the northern part will be communicated to the Secretary, Public Works Department, and the Deputy Commissioner who will be requested to give their attention to the subject.

11. With the foregoing remarks, His Highness the Maharaja's Government are pleased to sanction the proposed settlement with the usual guarantee for 30 years.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent, Revenue Survey.
The Deputy Commissioner, Kolar District.
The Secretary, Public Works Department.
The Director of Agriculture and Statistics.

PART I.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),— dated 2nd July 1887.

READ THE FOLLOWING PAPERS :—

Letters noted in the margin from the Deputy Commissioners of Districts submitting the Budget Estimates of Civil charges debitable to District Funds during the official year 1887—88.

Letter from	Deputy	Commissioner,	Bangalore, No. 847, dated 28th January 1887.
Do	do	do	Kolar 1766—341, dated 10th March 1887.
Do	do	do	Tumkur 381, dated 17th November 1886.

Do	do	do	Chitaldroog 339—348, dated 22nd October 1887.
Do	do	do	Mysore 183, dated 17th January 1887.
Do	do	do	do 713, dated 8th February 1887.
Do	do	do	Hassan 68, dated 3rd May 1887.
Do	the	Comptroller	739, dated 31st May 1887.

Docket from the Education Secretary No. 779, dated 14th June 1887.

No. 1721-32—46, DATED 2ND JULY 1887.

ORDER THEREON.—According to the estimates of the Local Fund income for the current official year furnished by the Comptroller, the District Fund receipts amount to Rs. 5,00,500 and the opening balance to Rs. 4,43,903, making a total of Rs. 9,44,403 : out of this amount Rs. 4,58,000, exclusive of a grant of Rs. 71,250 from Local Funds, have been appropriated by the Public Works Department for District Fund works.

2. In the Budgets of Civil charges now submitted, the total expenditure is estimated at Rs. 43,632 against Rs. 41,755 in the past year, as per marginal details.

Items.	1886—87	1887—88
I. Statistical and Office &c., Charges.	1,800	2,170
II. Travellers' Bungalows, Musafarkhanas, &c.	8,021	7,433
II. Charitable Grants—Dispensaries, &c.	18,414	20,347
II. V Education-Scholarships.	3,956	3,744
V. Miscellaneous.	9,564	9,938
Total Rs.	41,755	43,632

3. *Statistical and Office charges.*—The allotments made in the Budget of the Bangalore District for "Contingent charges of the Comptroller's office" and for Local Fund Gumasta on Rs. 15 in addition to the usual Statistical Clerk in the District office on Rs. 20 per mensum will be disallowed for reasons given in the Dewan's Proceedings No. 6972-5—430 of the 11th March 1886, likewise the provision entered on account of the "usual share of the Dewan's office establishment" will be struck out, as under recent orders, the District Funds have been relieved of the cost of this establishment.

4. *III. Class Travellers' Bungalows, &c.*—Under the head III Class Travellers Bungalow Establishment, the provisions in the Budget of Kadur show a net decrease of Rs. 780 * per annum, the reason for this has not been given. The budget of the Mysore District provides for an additional sweeper on Rs. 4 per mensum who is said to have been entertained for the Chinkurli Traveller's Bungalow. In the Hassan District the Deputy Commissioner proposes to raise the pay of the Bungalow sweepers from Rs. 4 to 6 for the 3 Maidan and Rs. 4 to 7 for the 2 Malnad Bungalows, involving an annual increase of Rs. 144 as their present pay is inadequate to secure resident and constantly attending servants. These allotments are passed.

Items.	1886—87.			1887—88.		
	No.	Rate.	Amount.	No.	Rate.	Amount.
Bungalow Sweepers ...	8	6	576	...	...	...

Peon to assist Kotwal at Koppa	1	6	72	...	...	...
Total.....	48	...	3,252	36	...	2,472

*Total decrease is Rs. 780.

5 The Deputy Commissioner of Chitaldroog is requested to furnish details of the number and rates of pay of the servants of the Travellers' Bungalows, and Musafarkhanas in the District.

6 Provisions have been made for the Dispensaries proposed for Nelamangala, Hoskote and Devanhalli in the Bangalore District; Gubbi in the Tumkur District; Hiriyur, Molakalmuru, Holalkere and Jaglur in the Chitaldroog District and Holé-Narsipur and Arkalgud in the Hassan District. In the Dewan's Proceedings, noted in the margin, Dispensaries have been santioned only for the towns of Hoskote, Hiriyur, Arkalgud and Heggaddevankote; the neccessary provisons for these as well as for the Branch Dispensary at Mysore sanctioned last year will be made in the Budgets, and the allotments entered for the other Dispensaries will be provisionally retained.

Proceedings No. 2010—12, dated 17th March 1887.

Proceedings No. 831-40—69, dated 20th May 1887.

7 The new provision of Rs. 240 entered in the Budget of Kolar for the pay of a midwife cannot be retained as in this office No. 6063—255, dated 10th October 1886, the entertainment of the midwife for Kolar was considered unobjectionabe only if the charge on this account could be paid from the Municipal Funds of the town.

8. Pending final orders on the proposal made in the Kolar Deputy Commissioner's No. 94—19, dated 22nd April last, to raise the pay of the Compounder of the Kolar Dispensary, the increased provision of Rs. 180 made for this purpose will be allowed to stand, the present pay of Rs. 12 per mensem being continued till final orders.

9. As regards the provisions newly entered in the Budget of Shimoga for house rent under the head Dispensary in the towns of Tirthahalli, Sorab and Nagar, the Deputy Commissioner is requested to explain the purpose for which these are required. It is observed that under recent orders, the Hospital Assistants in charge of the Dispensaries in these Malnad places are not allowed house rent in addition to the Malnad allowances sanctioned to them.

10. The provision for Malnad allowances to Hospital Assistants in the Kadur District in accordance with the Dewan's Proceedings No. 817—26 of 19th October 1886 amounts to Rs. 800* and not Rs. 660 as entered in the Budget of the District.

* Allowance to 4 Hospital Assistants at Rs. 15, full cost,	720
Do to 1 at Rs. 10, ⅔ cost,	80
Total Rs.	800

11. The Budgets of Bangalore and Tumkur provide Rs. 72 each for a peon to the Deputy Inspector of Vaccination in these Districts. The Deputy Commissioner of Mysore applies for sanction to a similar peon on Rs. 6 with a fixed travelling allowance of Rs. 2 per mensem as proposed by the Local Fund Board of the District. On the recommendation of the Senior Surgeon, the Deputy Commissioner of Tumkur also proposes to allow batta at one anna per diem to the Vaccination Deputy Inspector's peon in the District. Under these circumstances, the proposal to pay Rs. 6 to the peon attached to the Deputy Inspector of Vaccination in each of the Bangalore, Tumkur and Mysore Districts is sanctioned and travelling allowance as recommended by the Senior Surgeon may be granted to the peon at the rate of 1 anna per day while on travelling duty.

12. The Budgets of Tumkur and Shimoga Districts provide Rs. 500 and 300 respectively on account of feeding and diet to In-patients. In explanation of the former which is a new provision, the Deputy Commissioner of Tumkur states that it is proposed to feed at the cost of local funds the In-patients in the Dispensaries throughout the District in places where there are no Muzarayi Chuttrums, as in these localities private charity cannot be depended upon and the sick experience much difficulty. With regard to this proposal, the opinions of the Deputy Commissoners of the other Districts will be invited and the provision referred to will in the meanwhile be retained, no charge being incurred until further orders.

13. In his Docket No. 779, dated 14th June 1887, the Education Secretary states that the whole cost of the scholarships referred to in his letters noted in the margin amounting to Rs. 1,248 per annum is chargeable to District Funds and that no other expenditure under that head has since been sanctioned. This charge will be debited equally to all the Districts, as in sanctioning them, no particular reference has been made to any single District.

Education Secretary's No. 3585, dated 22nd February 1887.

Education Secretary's No. 3586, dated 22nd February 1887.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 2nd July 1887.

14. In the Budget of Chitaldroog the usual provision on account of the Travelling allowances to Dasara representatives from the District, omitted by the Deputy Commissioner, has been now entered.

15. With the foregoing remarks, the District Fund Budgets of Civil charges for the current official year are sanctioned and they stand as shown in the margin.

READ THE FOLLOWING PAPERS:—

Proceedings No. 1318, dated 13th December 1886, sanctioning, subject to adjustment hereafter, an advance of Rs. 1,000 to the Bangalore Spectator towards the cost of Government advertisements.

Letter dated 2nd April 1887, from the Managing Proprietor, Bangalore Spectator, submitting a statement of Government advertisements published in the Spectator from 1st November 1886 to 31st March 1887 amounting to Rs. 1,886—12—4.

No. 1824—49, DATED BANGALORE, 5TH JULY 1887.

ORDER THEREON.—In Proceedings No. 2154—92, dated 11th June 1886, Government advertisements were ordered to be sent for publication in the Bangalore Spectator, the question of the rate at which these advertisements should be paid for being reserved for subsequent consideration. It was however intended when those orders were passed that the payment to the Spectator should be on the same principle as that on which the Daily Post is paid under Proceedings No. 162—3, dated 13th April 1885. Under such circumstances, a maximum grant of Rs. 2,000 per annum is sanctioned for all Government advertisements published by the Spectator without reference to the space occupied by them.

2. It is however necessary to repeat for the guidance of officers sending advertisements for publication that ordinarily a single insertion ought to suffice, but in special cases where wide publicity is required, an advertisement may be ordered to be published in three issues. In no case should the publication of an advertisement in more than three issues be ordered. To arrange for an advertisement appearing on different dates in the local Spectator and the Daily Post, would be the means of ensuring wider publicity, and such an arrangement may be resorted to whenever publication for more than on 3 successive days is desired.

3. The statements furnished by the Spectator show that Government advertisements occupied over 2,500 inches of their space for the ten months ending 31st March 1887, but the Government cannot undertake to pay according to quantity of space taken up and they consider that a lump sum of Rs. 2,000 per annum is a liberal grant for all Government advertisements.

The proportionate amount of this grant payable to the Spectator up to 31st March 1887 for ten months is Rs. 1,666—10—8, and towards this sum Rs. 1,000 were paid under Proceedings No. 1318, dated 13th December 1886. The balance will now be paid, so as to adjust their account up to 31st March 1887.

In future, the grant may be paid by quarterly instalments of Rs. 500 in the case of both the Spectator and the Daily Post.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Managing Proprietor, Bangalore Spectator.
The Proprietor, Bangalore Daily Post.
The Comptroller.
The Heads of Departments.
The Deputy Commissioners of Districts.

READ THE FOLLOWING PAPER :—

Letter No. 228, dated 2nd July 1887, from the Deputy Commissioner, Mysore District, enquiring whether when an Amildar of the 5th grade is absent on leave, he may not be allowed to have half of the horse allowance of Rs. 20, the other half going to his temporary substitute.

No. 1968—101, DATED 9TH JULY 1887.

ORDER.—The existing practice will not be disturbed ; the Amildar on leave must forego his allowance.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Mysore District.
The Deputy Commissioners, of other Districts.
The Comptroller.

Letter No. 203 of 23rd instant, from the Deputy Commissioner of Mysore, also the records received therewith, relative to the Shanbhogship of Honnavar, Nuggamangala Taluk.

No. 1686—93, DATED 4TH JULY 1887.

ORDER.—On 11th September 1877 Shamanna was appointed Baravardar Shanbhog according to the wishes of his wife's grandfather Venkatesaiya, and since that date his status was not that of a mere Gumasta, but that of a Hakdar. It is clear from the deposition given by Venkatesaiya about that time, that the Shanbhogship in question was not recognized to belong to Venkatramaiya (Petitioner) or his branch of the family. The point which is of importance for the decision of this case is that Petitioner got possession of the Shanbhogship in 1886, as Gumasta of Nanjappa, and he must now give up the office to Nanjappa. He can, of course, if so advised, seek redress by a regular Revenue suit.

2. Petition rejected.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Mysore, returning proceedings

READ THE FOLLOWING PAPER:—

Letter No. 44 of the 22nd April 1887, from the Deputy Commissioner, Bangalore District, soliciting orders regarding the cancellation of the inam tenure of certain land in the Manchenahalli Village of the Devanhalli Taluk assigned to the Malangsha Darga.

No. 1890-8—CIR. 52, DATED 4TH JULY 1887.

ORDER THEREON.—The alienation of a religious inam by Court or Revenue sale does not differ from that by private contract, and the Deputy Commissioner must accordingly proceed under Clause B, para II, of Notification No. 266, dated 17th November 1877, to resume and restore the inam land to the religious institution to which it belongs.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Bangalore District.
The Deputy Commissioners of other Districts.
The Inam Superintendent.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 5th July 1887.

READ THE FOLLOWING PAPER :—

From the Deputy Commissioner, Kadur District, To the Chief Secretary to the Dewan of Mysore, No. 244, dated Camp Tarikere, 7th October 1886.

In forwarding for information and obliging return Tarikere Amildar's Itilla, with enclosure, No. 850, I have the honor to request the favor of being kindly informed whether under para 2, clauses (2) and (3) of the Proceedings of the Dewan No. 950—60, dated the 16th September 1885, resignations from Shanbhogs and Patels of the existing Service Inam lands, whether tendered wholly or in part, can now be accepted, the proportionate deductions being made in the amount of the remunerations paid this year in cash.

No. 1764-5—50, DATED 5TH JULY 1887.

ORDER.—It is probable that the resignation was due to the fact of the land having been fully assessed and the levy of full assessment from the officiator as per orders conveyed in the Dewan's Proceedings No. 950—60 of 16th September 1885.

(2.) The Dewan has reconsidered the subject, and directs that the Rule XXIII of the Patel Remuneration Rules should be enforced, in which case it is probable that the resignation would be withdrawn. The records are returned.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Kadur District.
The Superintendent, Revenue Survey.
The Deputy Commissioners of other Districts.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 7th July 1887.

No. 140—24.
Enc. 3.

OFFICE OF THE REGISTRAR OF COMPANIES,
Bangalore, 13th June 1887.

To

The Chief Secretary to the

Dewan of Mysore, Bangalore.

SIR,

I have the honor to submit a report on the working of the Indian Companies Act X of 1866 in Mysore during the year 1886—87 according to the instructions of the Government of India Resolution No. 40 S., dated 10th February 1886.

2. There were 65 registered companies or associations at the close of 1885—86 working with an aggregate nominal capital of Rs. 24,64,500. During the year 1886—87, * three of these with a nominal capital of Rs. 61,000 came under liquidation either voluntarily or under orders of Court; and † two companies with a capital of Rs. 40,000 ceased to exist before commencing operations. ‡ Two others increased their capital by Rs. 30,000.

* 1. Koratagere Gangadharesvara Bank, Limited.
2. Channarayapatna Hindu Kutumba Pharma Paripalana Nidhi, Limited.
3. Mysore Pushpavati Sahaya Nidhi, Limited.

† 1. Mysore Sri Vivaha Mahotsavabhivriddhi Company, Limited.
2. Chikballapur Transit Company, Limited.

‡ 1. Nanjangud Srikanthesvara Bank, Limited.
2. Chikballapur Life Insurance Company, Limited.

3. Fifteen new companies were registered during the year with an aggregate nominal capital of Rs. 3,94,100 as particularized below :—

		Date of Registry.	Nominal Capital.
1.	Nagamangala Taluk Belluru Native Upanaina Vivaha Dravya Sahaya Samullasani Company, Limited ..	16th April 1886	26,800
2.	Channarayapatna Kallyana Dravya Sahaya Sampanna Nidhi, Limited	4th May 1886	2,400
3.	Bettadapura Native Vivaha Upanaina Paraspara Sahaya Sammujjivini Company, Limited	7th Do	26,000
4.	Belluru Native Annyonya Dharma Sahaya Sangha, Limited..	29th June 1886	20,000
5.	Kolar Kallyana Sahayabhivriddhi Company, Limited ..	29th July 1886	14,400
6.	Mysore Sri Lakshmi Narasimha Bank, Limited ..	20th August 1886	30,000
7.	Mayasandra Balodaya Upanaina Vivaha Rutumati Life Insurance Company, Limited	1st October 1886	20,000
8.	Bangalore Srinivasa Nidhi, Limited	15th Nov. 1886	20,000
9.	Sidlaghatta Rajadhani Bank, Limited .	13th Do	20,000
10.	Honnanahalli Native Upanaina Vivaha Rutumati Balodaya Paraspara Dravya Sahaya Samullasani Company, Limited..	7th Dec. 1886	15,000
11.	Balaganchi Native Balodaya Upanaina Vivaha Nisheka Life Insurance Paraspara Dravya Sahaya Company, Limited.	15th January 1887	19,500
12.	Mysore Sri Ramachandra Bank, Limited	25th Do	40,000
13.	Chandrahalli Balodaya and Vivaha Company, Limited ..	12th March 1887	16,800
14.	Chelamkote Sri Sundaresvara Bhakta Samrakshana Nidhi, Limited	31st March 1887	19,200
15.	Hassan Coffee Association Company, Limited ..	30th August 1886	1,00,000
			,100

4. At the close of 1886—87 there were altogether 75 companies working with a nominal capital of Rs. 27,87,600 (Statement A). The following statement shows the different classes of companies working during the year under review :—

Nature of Companies.	No.	Nominal Capital.	Paid-up Capital.
Banking or Loan Companies	66	25,02,600	6,95,084
Do and Insurance Companies	5	95,000	64,270
Trading Companies	4	1,90,000	34,125
Total.....	75	27,87,600	7,93,479

5. Besides the above, there were 9 companies not working but not formally wound up, with a nominal capital of Rs. 30,000 (Statement B) and 23 companies with a nominal capital of Rs. 13,81,000 were in course of liquidation either voluntarily or under the orders of the Court (Statement C).

6. Thus there were 107 companies at the close of 1886—87 with an aggregate nominal capital of Rs. 44,68,600, *viz* :—

Companies working	75 ..	27,87,600
Do in existence but not working ..	9 ..	3,00,000
Do in course of liquidation ..	23 ..	13,81,000
	107 ..	44,68,600

and they are located as follows :—

Bangalore Town	22	Mysore Town	15
Nelamangala	1	Tirumakudlu-Narsipur	1
Gubbi	1	Hassan	13
Kolar Town	6	Manjarabad	1
Bowringpet	1	Channarayapatna	3
Betmangala	1	Chikmagalur	3
Malur	1	Nanjangud	1
Chikballapur	9	Chitaldroog	1
Sidlaghatta	3	Shimoga	1
Srinivaspur	7	Tiptur	1
Tumkur Town	9	Nagamangala	3
Koratagere	1	Hunsur	1
		Koppa	1
			107

7. During the year 1886—87 two hundred and sixteen periodical returns, &c., were received and registered against 191 of the previous year. The increase is due to the registration of 15 new companies in 1886—87.

	1885—86.	1886—87.
Proceedings of Ordinary Meetings	32	39
Do of Extraordinary Meetings	16	17
Balance Sheets ...	67	73
Lists of Share-holders ...	43	56
Other Documents ...	33	31
	191	216

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 7th July 1887.

8. No prosecutions were instituted for breach of the provisions of the Companies Act during the year.

9. The financial result of the year is as follows:—

Particulars.			1886—87.			1885—86.		
Fees for registration of Balance Sheets			55	0	0	335	0	0
Do	Lists of Share-holders		35	0	0	215	0	0
Do	Proceedings of Ordinary General Meetings ...		195	0	0	160	0	0
Do	do of Extraordinary General Meetings ...		80	0	0	80	0	0
Do	other papers		60	0	0	35	0	0
Do	new Banks		785	0	0	1,140	0	0
Do	for removal of Bank office		35	0	0	15	0	0
Do	for increase of Capital		60	0	0	195	0	0
Miscellaneous Receipts			12	12	3	13	14	9
	Total.....		1,317	12	3	2,188	14	9
Deduct Disbursements—								
Cost of Establishment		584 7 7	64	7	7	612	9	11
Amount of Refund		... 60 0 0						
	Balance in favor of the Department.....		673	4	8	1,576	4	10

I may here remark that hitherto it was the practice to levy a fee of Rs. 5 on every Balance Sheet and List of Share-holders received and filed in this Office under Sections 49 and 25 of the Companies Act; but there being actually no justification for the levy of this fee under the rules, I discontinued this with the sanction of the Government from 1st July 1886. The result is a decrease of about Rs. 871 in the income.

10. Statements marked A, B and C are herewith submitted.

I have the honor to be,

Sir,

Your most obedient Servant,

S. VENKATAVARADAIENGAR,

Registrar of Companies, Mysore.

A.

S. VENKATAVARADAIENGAR, B. A., M. L.,
Registrar of Companies, Mysore.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 30th July 1887.

READ THE FOLLOWING PAPER;—

Docket No. 191—30, dated 2nd June 1887, from the Registrar of Companies in Mysore submitting Report for the year 1886—87.

No. 1852—172, DATED 7TH JULY 1887.

ORDER THEREON.—Recorded.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Registrar of Companies.

READ THE FOLLOWING PAPER:—

Letter No. 152 of 2nd July 1887, from the Deputy Commissioner, Hassan District, reporting on the Petition of Yellappaiya, praying for the Shanbhogship of Agrahar Firka, Channarayapatna Taluk.

No. 1902—42, DATED 8TH JULY 1887.

ORDER THEREON.—The demand of security is without adequate authority and need not be insisted upon. The Deputy Commissioner will select a competent member of the divided branch of the family and appoint him as Shanbhog; the appointment of an entire stranger being cancelled.

2. Whether Nos. 1, 2, 3 and 4 are divided or undivided from the family of the dismissed Shanbhog is a point of fact which the Deputy Commissioner should ascertain.

3. The vernacular papers are returned.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Hassan.

READ THE FOLLOWING PAPERS:—

Letter No. 3260—55 of the 7th July 1887 from the Secretary, Board of Examiners, forwarding the written statements of Messrs. Clapham and Puttanna regarding the conduct of Sheristadar Krishnappa at the late examination.

Letter No. 269 of the 20th July 1887 from the Deputy Commissioner, Bangalore District, submitting his opinion on the case after hearing Krishnappa's explanation.

No. 2383-4—136, DATED 30TH JULY 1887.

ORDER.—The offence of using a note book when answering questions at the Departmental examination held in June last, is fully established against Krishnappa, Sheristadar of the Closepet Taluk. The Departmental character of the examination and the official position of the examinee render the offence so serious as to justify the offender's dismissal from the public service. But in consideration of the Deputy Commissioner's good opinion of his past conduct and his long service of 24 years, the Government refrain from awarding in this instance the full punishment which he merits, and deems it sufficient to direct that—

(*a*) Krishnappa be suspended for six months from the date on which he was relieved of his duties under order of 28th June 1887,

(*b*) he be degraded to the 2nd Grade Sheristadari on the expiry of the period of suspension.

and (*c*) he be debarred from again appearing for any Departmental examination in Mysore.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Bangalore District.
The Comptroller.
Copy to the Secretary to the Board of Examiners with reference to his letter No. 2786—50, dated 17th June 1887.

PART II.

JUDICIAL.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF JULY 1887.

5	The grant of 4 guntas of land in Survey No. 17 of the Kesagodu village in the Belak for constructing a Matt for the residence of a Lingayat Guru, was sanctioned and the Deputy Commissioner, Hassan District, was requested to submit a draft deed of gift.—Communicated to the Superintendent, Revenue Survey.	Do do	
6	In reply, the Deputy Commissioner, Hassan District, was requested that payment of the amount of assessment on the lands under Karadi Bachalli Ane in the Manjarabad Taluk might be made as usual for the performance of the gananadhane, &c.	Do do	
7	Notification of sale of the Jodi Kanchganahalli village in the Honnali Taluk, Shimoga District, was forwarded to the Compiler, Mysore Gazette, for publication in the Gazette in the usual manner.	Do do	
8	Sanction was accorded to the acquisition of land in the Palhalli village, Seringapatam Taluk, by Lakshminaranaiya, Amildar of Koppa Taluk, Kadur District.—Communicated to the Deputy Commissioner, Kadur District.	Do do	
9	In reply, the Deputy Commissioner, Bangalore District, was requested to state if Mr. Garudachar had failed to pay the balance of the purchase money of the Bhimankuppe village within the prescribed time, and informed that if he had failed, he had no right to claim any compensation, but would forfeit his deposit money.	2nd do	
10	In forwarding a revenue demand notice in duplicate received from the Anekal Taluk, the Assistant to the Resident was requested to cause it to be served on Allikhan, residing in the Civil and Military Station, Bangalore, the original returned to this office.	Do do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
11	The Deputy Commissioners of Kolar and Mysore Districts were requested to report to this office at an early date the exact amount of arrears due to their Districts by the late toddy contractors.	4th July 1887.	
12	Copy of the Kolar Deputy Commissioner's letter No. 452—127, dated 27th June 1887, regarding the selection of a site for a Roman Catholic Cemetery, near the Kolar Gold Fields, was forwarded to the Assistant to the Resident.	Do do	14th May 1887, Part II, Revenue.
13	In reply, the Deputy Commissioner, Kolar District, was requested to at once take steps to transfer to the Madras Railway Company the lands required by them.	Do do	
14	In reply, the Deputy Commissioner, Mysore District, was requested to warn the contractors Messrs. Papanna, Chikmallaiya & Co. that the selling rate of toddy, as fixed by the Government should be strictly adhered to and that the breach of the standing rule would be severely noticed, and call upon them to execute the contract bond without further delay.	Do do	
15	In reply, the Honorary Secretary, North Mysore Planters' Association, Koppa, was furnished with copy of the Dewan's Proceedings No. 1818—25, dated 10th March 1887, passing orders regarding the liability alike of both the European and Non-European planters' coolies to pay the mohatarfa tax where their huts stand outside the estates.	Do do	
16	In forwarding copy of the Inam Superintendent's letter No. 15 of 24th June 1887, the Deputy Commissioner, Hassan District, was requested that the Kulavadi inam might be disposed of according to the opinion contained in the enclosure above referred to.	Do do	3rd June 1887, Part II, Financial.
17	Sanction was accorded to the retention of Accountant Kappannaiya still capable of doing work though 55 years old for two years more to entitle him to half pension.—Communicated to the Deputy Commissioner, Kadur District, and the Comptroller.	5th do	
18	In forwarding petition No. 726, dated 1st July 1887, from Suranarapappa of Kallahalli in the Kolar Taluk, the Deputy Commissioner, Kolar District, was requested to submit a report with the records connected therewith before the 12th August, the day fixed for the disposal of the petition.	Do do	
19	The Deputy Commissioner, Bangalore District, was requested to express his opinion regarding the question whether the concession of confirmation without sale granted to Vishakantaiya on 19th May 1887 should be allowed in full or whether he and the petitioner Lingegauda of Nagavar, Closepet Taluk, should not divide the land on the terms of that concession.	Do do	
20	It was ordered that Channappaiya, son of Samaiya, Shanbhog of Gannagere be appointed as the Shanbhog of the Sulekuppe Kaval in the Kunigal Taluk.—Communicated to the Deputy Commissioner, Bangalore District, and petitioner Channappaiya.	Do do	
21	Revenue demand notice No. 118 of the Gudibanda Sub-Taluk was returned to the Deputy Commissioner, Kolar District, duly served on Lakshmaiya and Appaji Bhatta therein mentioned.	6th do	
22	The two demand notices to be served on Mr. Lewis and B. Krishnappa, both residing in the Civil and Military Station, Bangalore, were returned unserved to the Deputy Commissioner, Kolar District.	Do do	
23	The revenue demand notice duly served on Narayana Singh, residing in Civil and Military Station, Bangalore, was returned to the Deputy Commissioner, Kolar District.	Do do	
24	The revenue demand notice to be served on Arunachala Mudaliar, residing in the Civil and Military Station, Bangalore, was returned unserved to the Deputy Commissioner, Hassan District.	do do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
25	In modification of the order conveyed in this office Proceedings No. 1882, dated 11th March 1887, it was directed that a competent Gumasta be appointed by the Deputy Commissioner for the Giriyapur Pidia in the Davangere Taluk assigned to Subba Rao, the minor son of Venkat Rao, whose conduct in the past had been reported to be very unsatisfactory.—Communicated to the Deputy Commissioner, Chitaldroog District.	6th July 1887.	
26	In forwarding copy of a statement of Dod Papanna's claim against arrack contractors for the rent of jaggery ovens, the Deputy Commissioner, Bangalore District, was requested that the claim might at an early date be settled in communication with the parties concerned. PART I.

JUDICIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Judicial),—dated 9th August 1887.

READ THE FOLLOWING PAPERS:—

From K. Sheshadri Iyer, Esquire, C. S. I., Dewan of Mysore, To C. G. Plumer, Esquire, Chief Judge in Mysore, No. 1821—14, dated 5th July 1887.

I have the honor to forward herewith in original the marginally noted letters from the Senior Surgeon for your information and such action as the Chief Court may consider desirable.

1. Letter No. 237, dated 7th February 1887.
2. Letter No. 814, dated 14th June 1887 with enclosures
3. Letter No 831, dated 1st July 1887. with its enclosure.

2. It is an undoubted fact that much public inconvenience is caused by the withdrawal of Medical men from their stations and the consequent closing of local Dispensaries, and I shall be obliged by your instructing the subordinate Courts to detain the Medical witnesses the least number of days possible, and to send them back with a memo showing the number of days they were detained. I feel confident that you will concur with me in the necessity of some such step, so as to reduce to a minimum the public inconvenience of closing Dispensaries.

3. It would perhaps be desirable to call the attention of committing Magistrates to Section 509 of the Criminal Procedure Code, and to direct them that, except in exceptional cases, Medical witnesses should not be bound over to give evidence at the Sessions Court, leaving it to the Sessions Court to summon such witnesses whenever it considers it necessary, in the ends of justice, to examine them.

From C. G. Plumer, Esquire, Chief Judge of Mysore, To the Dewan to His Highness the Maharaja of Mysore, No. 3719—56, dated 22nd July 1887.

In reply to your letter No. 1821—14 of the 5th instant (enclosures returned), I have the honor to forward copy of a Circular letter addressed to all Sessions Judges and Magistrates, instructing them to avoid, as much as possible, detaining Medical officers, when appearing as witnesses before their Courts.

CIRCULAR LETTER No. 70, DATED 22ND JULY 1887.

It has been brought to notice that great inconvenience has been caused by Medical officers, who have been compelled to attend the Courts of Magistrates and Sessions Judges, having been detained there an unnecessarily long time. There is reason to believe that the evidence of a Medical officer is sometimes taken, when not actually required for the ends of justice. In all murder cases, where the corpse is forthcoming, *post-mortem* examination by a Medical officer is held, and in all those cases it seems imperative on the Magistrates unless the accused pleads guilty, to examine the Medical officer. This should be avoided.

Medical officers should not, unless when absolutely necessary, be bound over by committing Magistrates to attend Courts of Sessions. In the great majority of committed cases, the procedure laid down in Clause 1, Section 509, Criminal Procedure Code, may, with advantage, be followed. The Sessions Judge can always summon the Medical officer, if he wishes to do so. In all cases in which a Medical officer is a witness, Magistrates and Sessions Judges should make a point of examining him as soon as possible, so as to avoid all unnecessary detention.

No. 2628—28, DATED 9TH AUGUST 1887.

ORDER.—Copy forwarded to the Senior Surgeon to the Mysore Government with reference to his No. 881 of the 1st July 1887.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Senior Surgeon, Mysore Government.

PART I.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 9th August 1887.

No. 2700-8—71, DATED 9TH AUGUST 1887.

ORDER.—The water-rate of Rs. 4 per acre prescribed by Proceeding No. 7005—R. 75, dated 23rd November 1878, is in respect of Inam lands irrigated by Government irrigation channels drawn from rivers. This rate is too high—

(*a*) for Inam lands irrigated by Government tanks,
and (*b*) for Inam lands irrigated by a private branch channel drawn from a Government irrigation channel.

2. As regards case (*a*), it would perhaps be desirable to fix some uniform rate. The Survey Superintendent is requested to report what rate he would recommend or whether he would prefer to fix the rate in each individual case. It is believed such cases are not likely to be very numerous.

3. As regards case (*b*), the Dewan would fix the water-rate at Rs. 3 per acre, *i. e.*, ¼ less than the full water-rate on the principle on which wet lands under private tanks are assessed. The opinion upon this question of the Superintendent of Revenue Survey and of the Deputy Commissioners is requested.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent of Revenue Survey in Mysore.
The Deputy Commissioners of Districts.

No. 2709-18—72, DATED 9TH AUGUST 1887.

ORDER.—By Notification No. 292, dated 13th February 1874, all whole inam villages for which Inam title-deeds were not issued before the 12th October 1872 were ordered to be surveyed and valued by the Survey Department previous to the final settlement of the quit-rent leviable on them, all subsequent settlements made by the Inam Department being declared to be *ad-interim*.

2. The principles upon which the Survey Department valued inam villages came under discussion in 1881 and the final settlement of quit-rent made by the Department in accordance with the Notification of 13th February 1874 was, by Proceedings No. 4701-9—133, dated 2nd September 1881, ordered to be revised, adopting for purposes of valuation the survey assessment of the lands under cultivation in the inam village with 25 per cent of the assessment on the arable waste, together with a reasonable pasture rent on the unarable waste; and, pending such revised valuation, both the quit-rent and the local fund cess were directed to be collected on the old recorded valuation only.

3. It has come to the notice of the Dewan that certain holders of inam villages are allowed to withhold the payment of quit-rent and local fund cess on the pretence that the revised settlement directed in the Proceedings of 2nd September 1881 has not yet been completed. The special attention of Deputy Commissioners is drawn to para 5 of the Proceedings above quoted, directing that, pending the revised valuation, both quit-rent and local fund cess should be collected on the "old recorded valuation" of the village. What was ordered to be held in abeyance was the quit-rent and local fund cess calculated upon the survey valuation of the village made in accordance with Notification No. 292, dated 13th February 1874.

4. The Inam Settlement of villages for which Inam title-deeds were issued before 12th October 1872 will not be re-opened, and in their case quit-rent and local fund cess should be levied upon the value recorded in the title-deeds issued.

5. In the case of other inam villages, quit-rent and local fund cess should be levied upon the value recorded by the Inam Department, pending the final revised valuation directed in Proceedings No. 4701-9—133, dated 2nd September 1881.

6. Deputy Commissioners are requested to adopt measures for the early recovery of quit-rent and local fund cess in accordance with the foregoing observations in cases in which they have hitherto been withheld.

R. VIJAYINDRA RAO,
Chief Secretary.

To—Deputy Commissioners of Districts.
The Superintendent of Survey and Inam Settlements.
The Comptroller.

READ THE FOLLOWING PAPER:—

Letter No. 337, dated 13th August 1887, from the Deputy Commissioner of Mysore, submitting for orders a case in which certain batayi saguvalidars in the Jodi Rampur village are sued in the Nanjangud Munsiff's Court by individuals to whom the batayi lands have been granted by the late Jodidar, and enquiring whether Government should become a party in the suit.

CAMP No. 1011—18, DATED MYSORE, 20TH AUGUST 1887.

ORDER THEREON.—This is not a case in which the Government should seek to be made a party. The question at issue between the plaintiffs and the defendants is one of occupancy title in respect of certain lands formerly Inam but now Sarkar. The occupancy title is a tangible right, which the Inamdar is bound to respect in the same way as the Government would have respected it, had the land remained Sarkar.

2. In this particular case, after full enquiry the Government decided that the defendants were the real occupants as they had long been in occupation, though paying a rent in kind, and that the late Inamdar had therefore no right to treat these lands as unoccupied or even as Pannaya lands and to grant them to the plaintiffs or to any others for cultivation. In fact it was held that the Inamdar had vested in them no occupancy title which he would convey to any one. It was under such circumstances directed in para 6 of Proceedings No. 579—80, dated 13th September 1886, that these lands should be confirmed to the real occupants, namely the defendants, and that regular pattas should be granted to them. The pattas thus ordered to be granted were intended to be permanent as in the case of other Government ryots, the limitation of two years referring (as has been rightly construed by the Jamabandi officer) to the *rate* and *amount* of the money assessment, which it was expected would in two years come under revision, on the completion of the detailed survey already ordered in Proceedings No. 139—41, dated 6th April 1885.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Mysore District.
The Deputy Commissioner of other Districts.

No. 3013-20—83, DATED 23RD AUGUST 1887.

ORDER.—As full information is not generally received when sales of Jodi, Kayamgutta and Sarvamanyam villages are recommended by Deputy Commissioners, they are requested to prepare in English a statement in the accompanying form and forward the same to this office along with draft notifications of sale for publication in the Gazette, columns 1 to 10 of the statement being duly filled in and the other columns left blank. The statement will be returned to the District after publication of the notification for resubmission with all columns filled in when the records are sent up for confirmation of sale.

R. VIJAYINDRA RAO
Chief Secretary.

To—The Deputy Commissioners of Districts.

Statement of Particulars to accompany Notifications of Sale of Jodi, Kayamgutta and Sarvamanyam Villages.

1	Taluk,
2	Village.
3	Whether Jodi, Kayamgutta or Sarvamanyam Village.
4	Amount of Arrears due to Government with details (for each year of default) of Jodi and Kayamgutta Amount, Local and Irrigation Cesses and Interest, &c.
5	Names of Inamdars as per Quit-rent Register.
6	Names of Present Holders.
7	Particulars of their claims whether by inheritance or from what other causes.
8	Whether each Inamdar was individually served with notice of demand, the date and mode of service, *viz.*, whether on person, house or any male member of his family.
9	Date of Attachment of the Village and by whom?
10	Reasons for recommending sale in preference to taking the village under Government management and why movable property of the defaulters was not proceeded against.
11	Date of publication of sale notice in the Gazette.
12	Date on which proclamation of sale was duly notified in the village and neighbourhood and at the head-quarters of the Taluk.
13	Date fixed for Sale.
14	Date on which Sale was conducted.
15	By whom and where?
16	Highest bid offered with name of purchaser and whether the required deposit was made at the time of sale and whether the balance was paid within the prescribed time?
17	Whether any protest was entered at or after the sale. If so, what?
18	Remarks.

PART I.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 9th August 1887.

READ THE FOLLOWING PAPER :—

The Budget Estimates of the Municipalities in the Kadur District for 1887—88 received with the Deputy Commissioner's Nos. 306, C, E, and 113 of the 30th March, 28th April and 16th and 20th May 1887, respectively.

No. 2553-64—68, DATED 9TH AUGUST 1887.

ORDER THEREON.—The present number of Municipalities in the Kadur District is six against five in the year 1886—87, the establishment of a Municipality a Adjampur having been sanctioned in the Dewan's Proceedings No. 7518-19—205 dated 10th February last. The following is an abstract of the current year's estimates of receipts and expenditure :—

Tarikere	1,700	3,600	5,300	4,400	900
Birur	2,750	2,250	5,000	4,435	565
Kadur	900	1,000	1,900	1,650	250
Yedahalli	200	550	750	600	150
Adjampur	...	500	500	450	50
Total.....	10,550	20,900	31,450	26,285	5,165

RECEIPTS.

2. *Octroi.*—In Dewan's Proceedings No. 7468—9, dated 9th February last, sanction was accorded to the abolition of octroi in Chikmagalur on butter, sesamum, castor-oil seed and metals and the imposition of the tax on kerosine oil at the rate of 2 annas per tin. The estimated income for this town under octroi is Rs. 6,050 against Rs. 6,000 in 1886—87.

3. As regards the estimate of income under octroi, *viz.*, Rs. 75 in the new Municipality of Adjampur, the Deputy Commissioner is requested to report whether the inhabitants of the town are in favor of the tax which is not generally levied in all new minor Municipalities.

EXPENDITURE.

4. *Collection.*—Under collection charges in Chikmagalur, the provision made for a Mutsaddi is Rs. 60 against Rs. 120 per annum in 1886—87.

5. *Conservancy.*—The estimates under the head conservancy compared with those of the past year show a net increase of Rs. 688 as detailed in the margin. This is passed.

Conservancy	Details.	Differences
Chikmagalur—		Rs
	Dafadar at 7 instead of at 12 ..	—60
	Filling pits, &c.	—18
Tarikere—		
	2 Sweepers at 10	+240
Birur—		
	1 Cart at 15	+180
Yedahalli—		
	Increase of 1 rupee to each of 4 Sweepers	+48
	Other charges	+12
Adjampur—		
New Municipality.	1 Peon at 5 ... Rs. 60	
	2 Male Sweepers at 5 „ 120	+286
	2 Female do at 4 „ 95	

6. *Police.*—The estimated expenditure under "Police" in Tarikere is Rs. 600 or Rs. 318 more than that for the year 1886—87. The increase is due to the fact that the Budget provides for the entire cost of the Police of the Municipality.

7. *Lighting.*—The charge under lighting exhibits an increase of Rs. 254 over the last year's provision owing to a slight enhancement of the rates for lighting and to the proposed addition of 10 lamps to the existing number in Birur. This is sanctioned.

8. *Public Works.*—The proposed outlay on Public Works amounting to Rs. 9,779 against Rs. 6,296 in 1886—87, as noted in the margin, is passed. The charge under the head in Chikmagalur includes a sum of Rs. 1,000 for a Town Hall in that town.

	1886—87	1887—88
	Rs.	Rs.
(1) Original Works ...	1,749	4,159
(2) Repairs, Municipal ...	2,909	4,381
(3) Do Educational ..	1,267	828
(4) Compensation ...	150	300
(5) Reserve ...	221	111
Total Rs.	6,296	9,779

9. *Charitable Grants.*—In Dewan's Proceedings No. 1086 of 10th November last, it was observed that a midwife for Chikmagalur may be appointed on the condition that the charge is entirely debitable to Municipal funds. The current year's Budget of this town accordingly provides for a midwife on Rs. 45 and other charges at Rs. 5 per mensem.

10. The omission of the provision in the Budget of Yedahalli for $\frac{1}{3}$rd cost of Malnad allowance to the Hospital Assistant in charge of the Dispensary in the town has been supplied by this office.

11. With the above remarks, the Budget Estimates of the Municipalities in the Kadur District under review are sanctioned. They stand as detailed in the accompanying Appendices A, B and C.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Kadur District.
The Comptroller.
The Senior Surgeon.
The Education Secretary.
The Secretary, D. P. W., for information.
The Dy. Commissioners of other Districts for information.

R. VIJAYINDRA RAO,
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 20th August 1887.

READ THE FOLLOWING PAPERS :—

Dockets from the Deputy Commissioner, Mysore District, Nos. 25, 51, 180 and 311, dated 16th and 21st April, 9th June and 2nd August 1887, respectively, submitting the Budget estimates of the Municipalities in the Mysore District, except Mysore, for 1887—88.

No 2944-56—139, DATED 20TH AUGUST 1887.

ORDER THEREON :—Excluding the Town Municipality of Mysore, there are fifteen Municipalities in the Mysore District; their estimated receipts and expenditure for the current year are as shewn in the following abstract statement :—

	Municipalities.	Estimated Opening Balance.	Estimated Receipts	Total Income.	Estimated Expenditure.	Estimated Closing Balance.
Mysore District	1 Hunsur	5,451	1,721	7,172	2,414	4,758
	2 Chamarajnagar	3,765	617	4,382	617	3,765
	3 Yedatore	2,032	349	2,381	400	1,981
	4 Heggaddevankote ...	1,344	256	1,600	334	1,266
	5 Gundlupet	6,330	1,000	7,330	870	6,460
	6 Nanjangud	10,823	1,941	12,764	1,700	11,064
	7 Tirumakudlu-Narsipur ..	3,131	254	3,385	254	3,131
	8 Malvalli	2,612	567	3,179	725	2,454
	9 Seringapatam .. .	7,218	8,812	16,030	11,092	4,938
	10 Mandya	4,372	600	4,972	1,520	3,452
	11 Attikuppa	1,474	320	1,794	280	1,514
	12 Nagamangala	1,875	508	2,383	748	1,635
	13 Melkote	5,008	630	5,638	1,079	4,559
	14 Maddur	780	280	1,060	430	630
	15 French Rocks	1,292	506	1,798	585	1,213
	Total.....	57,507	18,361	75,868	23,048	52,820

2. *Receipts.*—The estimates of receipts under octroi show a slight falling off, as compared with those of the past year, owing chiefly to the recent reduction in the number of articles subject to the tax in Seringapatam.

3. The budget of Tirumakudlu-Narsipur omits provision for the English School in that town : explanation is requested.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 20th August 1887.

4. *Expenditure.*—The distribution of the cost of the Head Office establishment, as noted in the margin, is approved.

Details.	Charges debitable to Municipalities in the—			
	Mysore District Proper.	French Rocks Sub-Division		Total.
		Seringapatam.	Other towns.	
I. Mysore District Office.				
1 Clerk at 25 Contingencies 2 } 27 Rs. 324 per annum	324	...	...	324
II. French Rocks Sub-Division Office.				
1 Clerk at 15	...	120	60	180
Contingencies 1¾	...	12	9	21
III. Seringapatam Municipal Office.				
1 Clerk at 25	...	300	...	324
Contingencies 2		24		
Total.....	324	456	69	849

5. *Collection.*—Under collection of mohatarfa, provision has been made for an additional peon on Rs. 5 instead of a Paigast on Rs. 8 per mensem who was allowed last year but whose services are now considered unnecessary.

6. *Conservancy.*—The estimated cost of conservancy amounts to Rs. 6,312, or Rs. 360 more than that of the past year owing to the increases provided for, as noted in the margin. With regard to the higher rates entered for sweepers at Mandya, the Sub-Division Officer explains that male sweepers will be employed in place of female sweepers and that the services of good sweepers cannot be secured for less pay than Rs. 5 per mensem and proposes to raise the pay of the head sweeper to Rs. 6 as, besides supervising the work of other sweepers, he watches the drinking water reservoir in the town. The increased provisions are sanctioned.

Towns.	*Increases.*	*Amounts.* Rs.
Gundlupet.	1 Cart at 15 Rs.=	180
Malvalli.	2 Sweepers at 4=	96
Mandya.	Increase to Head Sweeper 4 to 6	24
	3 Sweepers at 5 instead of 1 at 4 and 2 at 3	60
	Total	360

7. *Lighting.*—In his letter No. 311 of 2nd August 1887, the Deputy Commissioner proposes to expend a sum of Rs. 100 in Mandya on account of lighting which is considered necessary in the town. The proposal is approved.

8. *Public Works.*—The estimated outlay under "Public Works" amounting to Rs. 8,505 against *Rs. 9,984 in the past year is chiefly on account of the Municipal roads and drains and repairs of school houses where needed and comprise a sum of Rs. 500 for the construction of a slaughter house and a butcher's market at Hunsur.

	1887—88. Rs	1886—87. Rs.
Original Works. ...	3,330	4,628
Repairs, Municipal ...	3,809	4,623
Do Educational ...	869	483
Reserve	497	250
Total.....	8,505	9,984

9. *Dispensary Charges.*—The marginally noted additions will be made to the allotments under "Dispensary charges" in accordance with the provisions in the current year's District Fund Budget of Civil charges for the District.

	Rs.
Heggaddevankote.—Furniture ⅓rd cost ...	70
Nanjangud.—Amount to be entered in accordance with the D. F. Budget of Civil charges is 160	
The sum provided for is ... 140	
Balance to be provided for ...	20
Nagamangala.—⅓rd cost of the L. F. Dispensary omitted in the Budget of the town to be supplied	100

10. *Education.*—The provisions under Education in Mandya, French Rockes and Nanjangud are on account of the grants to the Wesleyan English schools in these places sanctioned from Municipal Funds in the marginally noted Proceedings of the Dewan in the Educational Department.

Proceedings No. 4181-8, dated 24th March 1887.
Do 3662-7, dated 22nd February 1887

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Mysore District
The Comptroller.
The Senior Surgeon.
The Inspector General of Police
The Education Secretary.
The Public Works Secretary
The Deputy Commissioners of other Districts } for information.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 30th August 1887.

READ THE FOLLOWING PAPERS:—

The Budget Estimates of the Municipalities in the Tumkur District for 1887—88 and the marginally noted papers therewith connected.

Docket from the Deputy Commissioner, Tumkur,	No. 102, dated 20th May		1887.
Do	do	17, dated 18th May	1887
Do	do	167, dated 2nd July	1887.
Do	do	195, dated 16th July	1887.
Do	do	205, dated 20th July	1887.
Do	do	241, dated 9th August	1887

CAMP NO. 3148-60—122, DATED 30TH AUGUST 1887.

ORDER THEREON.—The estimated receipts and expenditure of the thirteen Municipalities in the Tumkur District for 1887—88 are as shown in the following abstract statement:—

	Municipalities.	Estimated opening Balance.	Estimated Receipts.	Total.	Estimated Expenditure.	Estimated closing Balance.
1.	Tumkur	2,396	5,950	8,346	7,754	592
2.	Bellavi	109	360	469	422	47
3.	Kortagere	1,651	445	2,096	654	1.442
4.	Gubbi	1,847	1,394	3,241	2,288	953
5.	Tiptur	6,985	1,337	8,322	4,887	3,435
6.	Maddagiri	750	705	1,455	1,112	343
7.	Sira.	3,866	1,182	5,048	3,035	2,013
8.	Chiknayakanhalli	2,249	1,175	3,424	2,384	1,040
9.	Turuvekere	530	526	1,056	733	323
10.	Huliyar	354	365	719	441	278
11.	Pavagada	303	268	571	514	57
12.	Kunigal	1,195	1,083	2,278	1,836	442
13.	Huliyurdurga	371	188	559	218	341
	Total.....	22,606	14,978	37,584	26,278	11,306

2. RECEIPTS—OCTROI.—The estimate of receipts under Octroi amounts to Rs. 1,900 against Rs. 1,940 last year, owing to the omission without explanation of the provision for income from cloth in Huliyar.

3. There are differences as noted in the margin in the estimates under House-tax and Mohatarfa. These have not been explained. As a rule hereafter increases or decreases in the estimates of income from House-tax and Mohatarfa exceeding 25 per cent should invariably be accompanied by explanation.

Number.	Names of Municipalities.	House tax. 1886—87.	House tax. 1887—88.	House tax. Percentage of difference.	Shop tax. 1886—87.	Shop tax. 1887—88.	Shop tax. Percentage of difference. 7	Kunigal ...	...	...	...	300	400	+33·3	...	..	..	...	..	..	..	..	..

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 30th August 1887.

4. EXPENDITURE.—In each of the towns of Gubbi and Kunigal the Deputy Commissioner proposes to grant an allowance of Rs. 4 per mensem to the Shanbhog collecting House tax and Mohatarfa, before sanctioning this item, the Dewan requests to be informed if Shanbhogs in other minor Municipalities are paid this remuneration.

5. The increases provided for under the head "Coservancy" which are as shown in the margin are sanctioned.

6. The estimate for lighting charges in Tumkur is Rs. 400 or double that of the past year owing to the proposed purchase of new lamps for the town. This is passed. The existing number of lamps in this town as well as in Gubbi, Tiptur and Kunigal where expenditure for lighting has been provided for should have been stated.

7. The proposed outlay on Public Works amounts to Rs. *15,267 against Rs. 12,789 in 1886—87. This includes a provision of Rs. 1,100 for the proposed construction of a vegetable market in the town of Tumkur. The estimate submitted for this work for Rs. 1,100 is herewith returned duly sanctioned.

	1887-88.	1886—87.
* Original works	9,427	8,454
Repairs	4,135	4,255
Compensation	1,705	80
Total Rs.	15,267	12,789

8. The allotments for the Local Fund Dispensaries in the District except Tumkur have been revised by this office as noted in the margin in accordance with the provisions in the current years District Fund Budget of Civil charges sanctioned in Dewan's Proceedings No. 1721-32—46 of 2nd July last. In Tumkur the provision for ⅓rd share of the menial establishment debitable to District Funds is entered at Rs. 136 in the District Fund Budget of Civil charges; accordingly the ⅓rd share chargeable to Municipal Funds of the town would amount to Rs. 68 while the Municipal Budget provides Rs. 96 for the charge. This requires explanation.

		Per Annum.
1. Maddagiri.	Compounder at 7	= 84
	Toti or Sweeper at 6	= 72
2. Chiknayakanhalli.	Waterman at 2	= 24
	Contingencies at 10	= 120
3. Sira.	Travelling allowance	= 60
	Furniture ...	= 30
4. Tiptur.	Total annual cost Rs.	390
5. Kunigal.	One-third charge debitable to Municipal Funds=Rs.	130

6. Pavagada Nil As the full charge on account of the Dispensary is debitable to District Funds under Dewan's Proceedings No. 144, dated 4th October 1885.

7. Gubbi ⅓rd share Rs. 208; provisionally entered as per para 6 of the Dewan's Proceedings No. 17621-32—46, dated 2nd July 1887.

9. The charges provided for under the head "Education" are on account of the grant-in-aid to the Wesleyan Mission School at Gubbi and the three-fourth cost of the English Schools at Sira and Kunigal.

10. The accompanying Appendices A. B. and C. contain details of the Budgets under review as now sanctioned.

Chief Secretary.
